

**Danellandia**  
The world of real values  
The world of Peace

## PAX FIDES – Forum on human values

Open letter to religious leaders

### **Requested to join the PAX FIDES Peace Initiative**

Dear religious leader,

We hope you have read about the campaign for peace and justice undertaken by Danellandia. We sent messages to various religious organizations. If you have not received any, we apologize.

We contact you because you are a leader in your religion and we would like your religion to be represented too on this campaign.

Peace to us is the respect of human values, like justice, liberty, equality, non-violence, respect for people, respect for Nature, fair trade, pluralism, tolerance, charity, truthfulness, forgiveness, privacy, friendship, openness, honesty, trust and solidarity.

The whole campaign is to give a clear sign to all those perpetrating violence: wars, conflict, abuse, criminality, corruption, deliberate Nature degradation, social and economic exploitation...

We want this to become reality: finally peace for God and for Humanity. This is why we are on a campaign. This time very peaceful indeed and with the aim of bringing peace by restating some of the basic human values, like respect, justice, equality, liberty, peace, charity, non-violence, respect for Nature, pluralism, tolerance, forgiveness, openness, truthfulness, fairness and solidarity.

We would like to ask you to join in and help to make the world realize that peace is the only option.

### **Pax Fides Forum**

We would also like you to join PAX FIDES (peace on faith), a forum for all religions to discuss the principles of Danellandia and ways to help people find or strengthen their faith. And to help people to bring out the very best in them. And to work towards global peace.

Ways to bring out the good in people can be based on the principles of Danellandia and on the letters and thoughts we send on many aspects of life,

like love and friendship, hatred and greed, war, science, marketing, politics, economics, religion and so on.

Priests or their equivalents in Danellandia are pastors of faith and peace. We think their colleagues in whatever religion could be too. They would be a uniting and pacifying force between peoples, cultures and religions.

One of the goals of Danellandia is the global acceptance of the **Pax Fides Vow** or agreement between religions in which they recognize that there is but one Humanity, one Nature and one God. And thus one faith as being the art of communicating with God. Religions would also openly condemn any form of violence.

Religions are different ways to worship the same Upper Being or Upper Intelligence or God. One of their aims should be peace between them all.

The final core message to be revealed by Danellandia is a **message of faith and humanity**. It touches the very hearts of people. Even non-believers will understand that they too have faith inside them. Bringing peace and bringing out the good in people will lead to a better world for all and for Nature.

Is this not a noble goal to go for? All of us, Nature and we think God will feel elated. We are part of Nature, however hard we try not to be. Let us be more respectful of her.

Peace will help the faith in us to develop as a sound basis for a healthy life. Spiritually, intellectually and physically. And in another way too gradually. Nature will benefit too.

Well-balanced human beings in a well-balanced world of peace, justice and happiness. This we want to attain.

We are sure you will agree that this is a very noble project. We would be very glad if you supported Pax Fides. The stronger it grows, the sooner we can release the core message to the benefit of all.

We will ask our friends too to ask you to work on PAX FIDES. It is an opportunity not to be missed. The people will be grateful.

If you want to support PAX FIDES, send a message through this [contact form](#).

PEACE counts on you. You can count on PEACE.

We thank you very much indeed.
