UNITED NATIONS: STOP ALL VIOLENCE

UN General Meeting on Earth Survival Plan

Appeal to all leaders to end wars and be deeply human

"No one has the right to take the life of any child, woman or man"

Dear Mr Guterres,
Dear leaders,

The United Nations was founded in 1945 and its main guideline is the Universal Declaration of Human Rights passed in 1948.

No one can ignore the United Nations has had a major role in promoting Peace and Justice around the world. Yet, no one can ignore the United Nations are really not that united at all. If they were, no innocent children, women or men would be sacrificed in wars that are in breach of the UN Declaration of Human Rights.

Is life not a fundamental human right?

Different views and interpretations of the Human Rights and of the way to warrant them, have made it difficult if not impossible to reach agreements about small and bigger issues. The killing of innocent civilians is a major issue, is it not?

Recently, COP26 on Climate Change and the measures to be taken by all countries urgently, has again shown how divided all nations still are. In addition, many nations or countries are also very much divided internally - some even to the point of huge conflicts between different parties or groups of the population, some even being at war or on the brink of it.

One Voice

The major reason why the United Nations is still far from being one Voice of one United World or one Humanity is the lack of Peace or a common definition of Peace.

Human rights are still interpreted in a way so as to correspond with the local laws, rules, beliefs, politics, economics, religions and other ways of organizing or should we say dividing nations, countries, regions, races, groups of people on principles that often run contrary to the very spirit of the Universal Declaration of Human Rights.

NATURA PAX

New World Pact

No single leader worth leading anyone should be against Lex Mater as it is the reflection of Natura Mater's Peace with Humanity. If he/she refuses to accept it, he/she is requested to look into the mirror right into the cora or pupil and ask MPTA to help him/her reconnect. Incredible it is for some leaders to pray and ask for favours, while those favours benefit just themselves or their limited group and damage others or Nature. If he/she cannot reconnect, he/she is asked to paxitize to discover what factors, actors and beliefs have been detaching him/her and have made him/her act against MPTA, Natura Mater or Lex Mater - in short, against Peace.

Natura Pax or Nature's Pact for a New World of Peace and Justice wants everyone to be part of the New World. Everyone is given the chance to become part of the New Humanity carried on CIQ - liberating the world of today full of violence, abuse, deceit, fake and confusion from the shackles imposed by all laws, rules and beliefs based on the Big Lie and Big Aberration.

Truth of Life

Only the Truth of Life can rescue Earth and make it the jewel of the Universe it could have been from the very start, but has not been as a result of the historical Aberration and the big but still very present Lie.

Only the Truth of Life reflected in the Declaration of Universal Human Values or Lex Mater combined with the Declaration of Universal Human Rights can rescue us all: "all children, women and men are equal and they all as well as Natura Mater must be respected always and everywhere".

The brutal killing and violence against innocent children, women and men should be halted now. The United Nations should be the Natura Pax Authority accepted by all leaders and other people across all borders. Not accepting it, is a clear indication of a level of CIQ still too low to feel the pain and suffering of a child dying of hunger as if it were your own.

Please stop this madness and let us upgrade civilization by embracing Peace as the respect of universal human values and, indeed, universal human rights.

Majai'vi or Peace to all and to Nature.

BE GREAT! REALLY AND GENUINELY GREAT!

Letter to world-leaders and others

Dear Madam

Dear Sir,

We are sorry to say that we don't think you are all really leading us. Or not yet or at least not in the right direction. But you could be excused. Moreover, you can be true leaders if you let go of certain principles and find common ground in Peace. Let's explain why and how.

When you look at the world around you, you cannot but see, feel and hear it is affected by so many problems: coronaviruses, pollution of water, soil and air, disintegration of society, commercial exploitation if not modern slavery, poverty, crime, violence of all sorts.

When you look at the people around you, you cannot but see that not many people smile anymore or little, but look as if they fear the worst is still to come.

When you look at yourself, you cannot but see and feel that you would like to be in a different world. A better world with less problems and less worries. A world you, your family, friends and community - local, regional, national and indeed international - could enjoy more.

You can be great

You can make the world different. You can, if you really want to. And when you listen to your inner voice you cannot but want to.

You can all be great. Great in a different sense. Not great as most history books define it. It was most often not the right definition at all.

Would you all not like to go down in history as a truly great leader? As a leader that signed the [Natura Pax Convention](#) or Natura Mater's Peace Agreement on creating the New World of Peace, Sanity and Justice?

NATURA PAX

New World Pact

Would you all not like to be great as defined in the Convention? Great as a woman or man that heeded the messages written on the blackboard of your hearts. Great because you heeded the messages sent by Natura Mater or Nature. Great as a woman or man and leader who was and is open to these messages.

Would you not like to go down in history as being a leader who sensed the full meaning of these messages and decided to do all that you possibly could to make the world around you, your community, your town, your city, your country and the entire world good and just for all and for Nature?

You can be great and so can we all! We just need to let go of principles that have stood in the way of Peace or genuine greatness ever since human history began.

Peace or genuine greatness

Greatness was often given a wrong definition because of erratic or babelonic principles, like "divide and rule". This kind of principles are based on Babel or the Biggest Aberration and Biggest Lie in the history of Humankind. Indeed, when listening to your hearts and heeding the messages of Natura Mater and of whatever you call the Higher or Superior Intelligence, you will sense that principles like "Nature is a commodity you can use and exploit as you want" and "some people are superior to others and to Nature and have the right to dominate, exploit or abuse them" are the main reason why the world today is not the world we and Nature want and need.

Babel or these erratic principles have led to abuse, atrocities and other violence that should never have been perpetrated if Babel had not originated in the minds of some deranged humans or humanoids. But still, they did find their way in the "collective mindset" of Humanity and have caused enormous damage to people and to Nature. Millions of innocent children, women and men have been sacrificed to ideas and ideals based on these erratic principles. Trillions and trillions have been spent on massively destructive weapons to defend ideas and ideals that were and still are contrary to the essence of Natura Mater's Law or Lex Mater.

Yet, you can prevent the madness of Babel from being perpetuated and being allowed to make life harder and not really livable for ever more people around the world. If it is continued, more severe crises are bound to hit us all, no matter where they live or no matter their social status. No one right in mind, heart and soul would want that to happen.

Babel replaced by Lex Mater

Dear Madam, dear Sir, if you want and if you listen to the messages written on the blackboard of your hearts and in coded signals from Natura Mater, you will agree Babel has to stop and be replaced by Natura Mater's Law or Lex Mater.

NATURA PAX

New World Pact

The messages clearly indicate that principles like "divide and rule" should be replaced urgently or right away by principles like "we all win when nobody loses" and "all people and Nature deserve to be respected always and everywhere".

The Natura Pax Convention was drawn up on the basis of many messages people like us have been noting down for several years, but especially since the early 2000s.

The Convention is a compendium of universal human values to be shared across all borders and walls and should serve as the foundation of the New World.

We are sure you will all want to be great and become a leader of the New World of Peace, Sanity and Justice.

We therefore ask you to take the [Natura Pax Vow](#) pledging to take Peace as the respect of universal human values and the [Natura Pax Convention](#) as your guide and beacon to unite, iron out differences, cooperate and start building the New World of Peace.

We also ask the United Nations to convene a Security Council and Extraordinary General Meeting to discuss the Natura Pax Vow and Convention and to set out the road map "United for the Survival of Earth".

Please be great, that is really great according to Natura Mater's definition: "greatness is respecting all people and Nature always and wherever".

Many thanks and majai'vi (Peace be to you and to Nature).

NO MORE WAR

Inspiring thoughts from Olympia

Once upon a time, on a distant island, two tribes were at war for as long as they could remember. Periods of relative peace and tranquility alternated with heavy fighting that claimed many lives and caused great damage.

The tribes were ruled by the strongest leaders, but not always the most intelligent.

The leaders were those who wanted power and more power. They wanted to dominate the other tribe and own the entire island. Although there was plenty of food to support all the people on the island and there was really no need to fight for it, the leaders seemed to like to fight and make war. They were hooked on it as if it were entertainment.

But little by little, the common people of both tribes got fed up with having to be willing to fight and risk their lives for the sake of the power their leaders wanted.

Several common, but actually not so common, people decided to try to meet with members of the other tribe. At first, the animosity and distrust that had been instilled in them since birth seemed to be an obstacle that could not be overcome. However, after a while of exchanging thoughts about life, Nature, leadership, family, and their desires and dreams, they discovered that they were quite similar. They just wanted to live in peace and enjoy life in the company of their families and friends.

So they decided to create a movement to promote peace among their tribes. Slowly and quietly.

After a while, the movement had reached almost all the people of the tribes. The leaders had not really understood why their people had been acting differently. Until one day in early spring, they were awakened by the sound of huge crowds at the gates of their palaces.

The crowds were shouting "we are Peace, we are Peace...", "we want Peace, we want Peace..."

The leaders at first could not believe their eyes, but when they saw that the crowds were not only made up of people from their own tribe, but also people from the other tribe, they realized that they could no longer be the leaders they had always

NATURA PAX

New World Pact

been. Leaders who had learned that fighting and waging war was normal since they were children. They finally realized that life without fighting and war was too good not to work for it. They joined the crowds.

Since then, the island has been like heaven, with both tribes living together in peace and working for the common good of all the people.

May the island inspire other islands, other tribes, other nations, other countries and their leaders, now so often blinded by power and educated to compete and fight.

FINAL LIBERATION MORATORIUM ON WAR

Freeing this world of Madness or the disease that is taking Humankind to extinction.

The Corona virus is proving to be more difficult to knock out than expected. The virus is adapting rapidly and new variants appear continuously.

People all around the world are infected and affected. Many people die, become ill and are losing their courage or heart.

Two long years of hoping the Corona crisis will be over soon... It is not over yet. Some scientists predict it will last several more years.

Unless...

The Corona virus has made us much more aware of what is really important in life: health, healthy air, water and food, friendship, peace and love.

It has made us much more aware of the reasons we have not had these most important elements in our lives. And also, why these reasons are not tackled as they could be tackled.

Madness

The main reason why is Madness and the fact we all live in a world of Madness, while the overwhelming majority of people all around the world do not want to be there. They want to live in a world of Peace and Sanity, where they have health, healthy air, water and food. A world where they can enjoy human warmth by sharing friendship and love (in their many forms) with their partners, children, friends, school mates, fellow citizens. In short, with the rest of the world.

The reason why this Madness has never been tackled or never cured and seems to be going on and on, is one Big Aberration and one Big Lie that have guided, dominated or ruled the entire world ever since they originated in the mind of some deranged human or humanoid being.

NATURA PAX

New World Pact

BABEL

BABEL, as the Biggest Aberration and Biggest Lie can be code-named, consists in dissociating Nature from the Supreme or Summum Bonum or Superior Intelligence or the Undefinable, on the one hand, and considering some people to be superior to others and Nature and having the right to dominate, manipulate and abuse other people and Nature, on the other. For centuries and now more clearly than ever before, BABEL has proved to be utter Madness and a blasphemy to the Summum Bonum or Undefinable or Divine.

Corona and Cornucopia

The Corona virus has been showing us we need to awaken and realize we are living in a world of Madness and that we are all infected and affected by the Cornucopia virus or virus of plenty. Plenty for part of Humanity and not so plenty or almost nothing for the other part.

Both the Corona and Cornucopia viruses are very tough to combat, but they can be combated. This combat is the most important "War" ever waged by Humanity. It is a "War on Madness" or the "War on BABEL".

The combat will require drastic measures across all borders and walls. It requires concerted action on the part of all countries, nations, corporations, religions, races... In short, everyone across the globe has to take part. It is the Biggest Humanitarian Campaign ever.

BABEL principles like "divide and rule" or "we are superior to others and to Nature", should be let go of and be replaced "united we survive, divided we perish" and "we will all win, when nobody loses".

Moratorium on War

In order for all people around the world to win and get out of the Madness we are all living in, a global Moratorium on War needs to be declared immediately. War should no longer be considered as Art. It has been considered Art by BABEL-minded or BABEL-manipulated people.

All parties involved should stop all hostilities and start an analysis of why they are what and how they are against the light of the antidote to BABEL, an antidote that can be used to anyone across the globe. It has been present in all human beings ever since "civilization" or human development began. But BABEL has relegated it to become second fiddle or even less.

NATURA PAX
New World Pact

Peace as the key to free us from Madness

Peace is the antidote to BABEL and so the key to combat Madness or the Biggest Aberration and Biggest Lie that have caused so much "inhuman damage" to people and to Nature. Still today, trillions are invested in wars and other destructive activities that cause damage to people and to Nature.

Peace or Lex Mater or Universal Human Values shared across all borders of all countries, nations, corporations, religions, races and other groups is to be the guide and beacon to take the entire world from Madness to Sanity, Health and Peace.

Peace or Lex Mater to finally free or liberate us from BABEL and its disastrous Madness that was taking all of Humanity to extinction.

LETTER TO EVERYONE LOVING NATURE AND PEACE

Wave of Healing Peace

Dear Friends of Nature and Peace,

We thank you for sharing messages and ideas with us on social media and/or for visiting our web pages. Without your support we could not do much.

We feel that we are connected and therefore we send you a personal invitation to be part of the "Wave of Healing Peace" or "Peace Heat Wave" which was officially launched on 12.12.21 as the Day of Peace and Liberation.

Together we can awaken those who run this world to be ashamed of the mess the world is in. Making them feel that they can do nothing but change the way we treat Nature and our fellow humans beings. Nature is used and abused as a mere commodity, whereas she is the essence and Life. Too many people are left out and/or abused commercially or otherwise. This cannot be called civilization. It is primitive madness. It seems that anything is allowed to generate money.

The creation of a global Peace Wave will send a strong signal to our leaders (who often deceive us) and make them feel the urgency to join the Natura Pax Convention, which is inspired by Nature and Peace, and which calls for a global cleansing of mentality and a clean-up of the environment, as well as an immediate cessation of all wars.

Deliberate pollution must be stopped, as it goes against Lex Mater, the Law of all laws or the Law of Peace. Respect for people and Nature is a basic principle that must be defended by all. Lex Mater must be the basis of the New World of Peace. The world that all countries and nations should be part of.

We all win, when no one loses

Every truly human being feels what Nature is feeling and is increasingly fed up and frustrated by the inertia or lack of decisions. Decisions not being made due to the "divide and conquer" mentality of many leaders today. Leading us all to more disasters. The motto should be: "we all win, when no one loses".

We invite you to visit our website www.naturapax.net to find out what we can all do to "be the change" that everyone and Natura Mater needs. We all feel the need

NATURA PAX

New World Pact

to demand leaders to change or leave the stage and let paxiticians or "leaders of Natura Pax" to take over.

If all goes well with Pax 21, it will change the face of history.

Please share and invite your friends too.

A WORLD WITHOUT HUGS...

is a world short of love and too cold to really enjoy, though temperatures are increasing ever more world-wide.

What a world we have all been forced to live in! Not the world the majority of people around the world want. Only a minority seems to want it and do all it can to make us believe it is the world we all want and need. They have the money, the algorithms, the artificial intelligence, the media and what not to influence our thoughts.

Politics, economics and other theories have largely been based on the wrong primeval principles. We call it Babel or Biggest Aberration and Biggest Lie in human history.

"Nature is a commodity you can exploit and abuse as you like".

"Some people are superior to others and to Nature and have the right to exploit them".

Babel has led to the mess we are all in! We are living in a world of Madness. No one right in mind, heart and soul can accept the violence and wars perpetrated just for the sake of power and riches.

Normal has never been normal. Violence and war are the reflection of the lack of genuine humanity or Heart or Peace or Higher Human Intelligence or MPTA (our Natura Pax definition).

Time to redefine the term normal and to introduce genuine humanity or Peace in the form of universal human values - shared across all borders and walls set up mainly to dominate, manipulate, exploit and abuse people and Nature and to acquire vacuous power and empty riches.

Time to redefine power and riches holding them against those universal human values or Lex Mater (Natura Pax universal human values). Time to penetratingly analyze and adapt the innumerable rules, laws, theories and the like created to allow some (people or countries) to acquire power and riches.

"Divide and rule" must be replaced by "we all win when no one loses".

Majai'vi to all and hugs!

PAX 21 - GLOBAL WAVE OF PEACE

Finally releasing us all

The Global Wave of Peace started in the early 2000s when a few friends or “tiny drops in the ocean” met each other on the internet and in real life through Peace.

They came from many different countries and belonged to different races, political and economic systems, religions or none...

They discussed about Peace and about why violence was so very much present in this world and in all fields of human activities and society.

They concluded most of the problems Humanity was facing were the result of the lack of Peace, which they defined as the respect of universal human values.

Peace inspired them to create a World of Peace and Justice based on Natura Pax or Peace Pact between Humanity and Nature as our essential partner.

They launched a campaign for Peace and Justice sending messages about Peace and human values to leaders, organizations and the public in general.

On 12.12.21, they officially launched Pax 21 or Global Wave of Peace.

Pax 21 wants to involve all people from whatever country, nation or race, whether black or white, yellow or brown or any colour in-between to boost and demand Peace from those that run - and often ruin - this world.

Aims of Pax 21 - Global Wave of Peace

- awakening all leaders to be honest with themselves, the world, all people and Nature
- demanding all leaders to finally unite and take the necessary and urgent measures to save themselves, their country, the world, all people and Nature
- demanding all leaders to stop threatening us with using the most lethal and massively destructive weapons
- awakening all leaders to understand that Peace is the only option for all
- demanding all leaders to understand that we are all part of the same Humanity and part of one and unique Nature
- demanding all leaders to take the Natura Pax or [Pax 21 Vow](#)

NATURA PAX

New World Pact

- demanding all leaders to accept **Natura Pax** or the Pact between Nature and Humanity about a New World - just and good for all and for Nature
- demanding all leaders to accept Natura Pax and its 25 universal human values and other legislation as the guideline and beacon to build the New World of Peace
- demanding all leaders to really unite and fully respect the United Nations Universal Declaration of Human Rights as essential to the New World of Peace
- demanding all leaders to start building the New World to finally release us all from the shackles of so many borders and divisions separating us needlessly
- demanding all leaders to review, eliminate or adapt all borders and divisions causing so much violence and damage to all people and to Nature
- demanding all leaders to hold all laws and rules now standing in the way of Peace against the Natura Pax Universal Human Values and the United Nations Universal Declaration of Human Rights.

Pax 21 - the Wave to Freedom

- sweeping away injustices and violence in the present-day world adrift or lost in confusion, fake and violence
- gradually bringing back human warmth or genuine humanity or Heart
- building a world that does care about the suffering of so many innocent children, men and women around the world
- building a world that will restore Natura Mater or Nature to its full glory and health, which will make us healthy too
- having all leaders and everybody else wherever on board the renewed but still magnificent ship called Humanity on a unique voyage
- a voyage taking every child, woman and man to a sustainable, green, clean, fair and healthy future
- a future where every child, woman and man is part of one Big Family of Peace that treats each family member and Nature fairly, just and equally well.

Thank you for joining the Wave of Peace.

STOP IT! GROW UP AND BE PEACE!

Shame on international community

The media report that more than 30 migrants died while trying to cross the Channel from France to the UK. Probably the worst accident with migrants in the Channel ever. More accidents like this are bound to happen. Why? Why is this kind of inhuman atrocities not being stopped? Atrocities it are! Crimes against humanity it are! Because the international community could stop this madness but does not really act. If only it really was a community and not an amalgam of 200+ countries that have been promising to promote Peace and Justice for ages, but that still invest billions in making ever more lethal weapons to combat violence and crime that is to a great extent caused by the way they act and carry on "business as usual". If this kind of mindset or war mentality stays, peace will never be reached. If nothing more drastic is done to tackle the causes of all the conflicts, wars, poverty, Nature degradation, societal collapse, hunger and other types of violence, everybody across the globe will have to face even harder consequences, like extreme weather conditions, social unrest and protests - not always peaceful, but violent for several reasons. The main one being the lack of action in all honesty of countries or leaders to tackle the reasons standing in the way of Peace.

Who is to blame?

Many migrants have been drowning or dying from hunger or exhaustion almost every day ever since we can remember. Who is to blame?

Not the migrants themselves as some would say. Some that have no idea about what the migrants went through. If you heard some of their stories, you would not dare to blame them. If you had enough empathy or deep humanity, you would feel their suffering and feel disgusted about the so-called international community hardly doing anything about it to stop migrants having to flee to escape from hunger, poverty, wars and other violence. No one with enough empathy, deep humanity or CIQ (higher human intelligence) can accept this as being a normal "part of the whole system". If it is normal, then the whole system is ill and gradually becoming terminally ill with the consequences of this "normal" being ever more disastrous. Everyone right in mind, heart and soul and using his/her CIQ or higher human intelligence will say this is absolutely abnormal and a sign of mental distortion or madness. Sorry for being so outspoken about it, but there are many reasons to say so (reasons that are evident for people using their CIQ).

NATURA PAX
New World Pact

Reasons behind migrant and other issues

Why do so many men and woman, including young people and often with very young children, decide to give up everything and to risk their lives to look for a better future for themselves and for their children?

A whole range of actors and factors have made these men and women decide their future no longer can be built in the country they were living. They decide to flee and risk their lives to reach a country that offers them the hope of building a new future, away from war, poverty, terror and insecurity.

A whole range of actors and factors that relate to politics, economics, religions and other divisions separating people and making many of them victims of other people that have made many countries, regions or villages unsafe for the migrants to continue to live. Anyone right in mind, heart and soul or CIQ people cannot but feel the pain and suffering these migrants have to endure, because the reasons behind it all are not being tackled. Not being tackled for many reasons as well. Reasons that are not tackled either because those that could do something about the reasons behind the migrant issues and also climate change, Nature degradation, societal collapse, crime and so many other forms of violence, are not using their CIQ or have been made unable to access it. Unable to use it because the environment they grew up in, has molded them to be what they are and how they think and act. It has made them think in terms of "competing with others, even if it means till death do us part".

Clearly, this kind of attitude has led to the world of confusion, fake, conflicts and violence we are all living in now. Clearly a world hardly anyone could want to be perpetuated "till death do us part". Hardly anyone in whatever country or nation, belonging to whatever race, gender, political or economic system, religion or any other group or division.

Community united in and for Peace

When is the international community going to be a true community united in and for Peace and Justice? When are the 200+ countries and their leaders going to feel this whole system of "competing and destroying people and Nature" cannot go on and on? When will they feel the only way to get out of it is to "unite to make everybody win and make sure no one loses"? When will they grow up (meaning using their CIQ or higher human intelligence) and to step in to make change happen and make Peace the way of thinking, living and acting?

Anyone right in mind, heart and soul cannot but want to grow up and feel the urge to unite and stop the madness of the present barbaric and babelonic system. Babelonic or BABEL-minded system based on the Biggest Aberration and Biggest Lie in human history, a history where the lack of Peace, genuine humanity

NATURA PAX

New World Pact

and CIQ has led to the loss of enormous resources, material and others. To enormous inhuman atrocities and violence against millions and millions of people and against Nature, the unique and precious habitat we all live in.

BABEL has dominated and largely ruined our history. The Biggest Aberration consisted in dissociating Nature from the Superior or Higher Intelligence or the Supreme or Divine and treating her as a mere commodity you can exploit and abuse as you want. The Biggest Lie consisted in considering some to be superior to others and to Nature. The consequences of BABEL are felt by everybody around the world and increasingly so. It is felt in the way we interact with the world around us, in our relationship with ourselves (indeed), with our families and friends, our schoolmates, our fellow citizens and with anyone else. It is felt in the way leaders interact with one another. Leaders in politics, business, religions and other sectors of society. In short, in virtually all that we think and do.

Still time to change history

Our history would have been totally different if BABEL had not originated in the mind of a stray human that had lost the capacity to feel connected with Nature and all that Nature, Heart, Peace, Soul or MPTA are: an entity we all belong to and which is not definable by any human being. The greatest scientists and thinkers have tried to do so, but have admitted it cannot be defined.

It is still time to change history if we all let go of BABEL. If we all join hands and take Peace - part of the Supreme or Summum Bonum - as our beacon and guide to change and work for Peace. All together across all borders and walls - largely set up to separate people for BABEL-induced reasons.

Peace as genuine or deep humanity or universal human values we all share in our DNA+ or the invisible, but yet very essential counterpart of our DNA or genetic code. DNA+ or the Code of Life is the key to make change happen and to end the World of violence and to start building the New World of Peace and Justice for all and for Nature;

DNA+ or the Code of Life is common to all human beings. It can be accessed and felt in different degrees of intensity depending on our capacity to use our CIQ or higher intelligence.

DNA+ or Peace or universal human values are the key to solve most of Humanity's problems. Holding all factors and actors (now upholding the BABEL-principles and blocking Peace) against the light of Peace or Lex Mater or Nature's Law of all laws will reveal Humanity has been on the wrong track or has been sailing in the wrong direction. But change is possible if we all let go of BABEL and start to use our CIQ and strengthen our common language of Peace or original mother tongue WiSOP.

NATURA PAX

New World Pact

Using our CIQ and speaking WiSOP will allow us to communicate across all borders and walls and make us realize it is a shame on Humanity and the international community to let so many migrants die. It would make us all feel they deserve to be helped. It would make the international community no longer an amalgam of BABEL-induced selfishness and individualism, but a "Peace Corp".

Now is the time to act differently!

The international community needs to tackle the reasons behind migration. It needs to declare a global moratorium on wars and limit the production of weapons. It needs to massively invest in education, clean energy, health, healthy food, fair trade, anti-corruption campaigns and related actions. It needs to set up a new International Court of Humanity to bring abusers to justice. Justice based on Lex Mater.

We have reached the point where the madness ruling this world ever since it began when a stray human invented the wrong principles or BABEL, is nearing its point of no return. It is time to make this world be guided by Lex Mater or universal human values. It is the only way to stop the madness and hypocrisy having led to the migration issue, Nature degradation, abuse of people at a scale deemed impossible, commercial exploitation, poverty, inequality...

Going it alone cannot be sustained. Joining hands to work on a common future of real or human values is the only way to survive.

Majai'vi or Peace be to all and to Nature.

PRISONERS OF MADNESS

Jailed and suffering needlessly

We are all prisoners of Madness.

The jail we have been put in is called World of Violence.

The reason we have been jailed for is the way we have been treating people and Nature for the sake of power and riches.

We did not realize we were in prison, until we were hit by a virus that made us think and see clearly we were being given poison.

Poison in the form of polluted air, water, food and beliefs.

The only antidote to be freed is to cleanse the Mind and use Heart or genuine humanity as our guide to the World of Sanity and Peace.

Antidote against Madness

The coronavirus had made us think and reflect more on our lives, our world, our way of thinking and our way of living.

It has made us (more) aware of the real values in life: peace, love and friendship.

It has made us see we have been misled into believing we had freedom. Freedom it has never been because the entire world had been abusing the right to freedom of other people and of Nature!

This world has shown to be a world of increasing confusion, fake, deceit and violence. Overwhelmingly the result of being guided by BABEL (Biggest Aberration and Biggest Lie in history: treating Nature as a mere commodity you can exploit and abuse as you want and, secondly, some considering themselves superior to others and to Nature and having the right to exploit and abuse others and Nature).

The only way to be set free is to embrace Peace as the respect of universal human values across all BABEL-inspired borders and walls.

NATURA PAX

New World Pact

BABEL has created a world spending trillions on weapons and other means of destruction, while largely ignoring the real needs of people and of Nature.

Time to leave BABEL behind by cleansing the "collective mindset" and ending the madness or self-destructive behaviour (a very serious mental illness indeed).

Let's all make our voices heard and demand those that run our world of Madness to come to their senses and stop all wars and clean up and prevent the damage done to people and to Nature.

Let's all be part of Pax 21 or Global Wave of Healing Peace - www.pax21.net.

Majai'vi to all and our best wishes for a speedy recovery!

LETTER FROM ALL CHILDREN TO ALL LEADERS WORLD-WIDE

Hello,

We have asked our adult friends, Peter, Emma, Gabriel, Sara, Manu, Paola, Ricky, David, Robin and many others, some of whom we call Mum or Dad, to help us. They told us they would do anything they could to get us out of poverty, misery, conflicts and wars. They promised to create a world that is good and just for us, for all children and for all adults too.

We met in different places all around the world. They met us in real life and on the internet. We met in shanty towns, at school, in hospital, among buildings hit by war and in many other places.

We felt so good they listened to us. They listened to what we feel and how we suffer from violence and abuse. From not being able to go to school, from not having enough food, from not being able to see a doctor or buy a medicine.

They listened to us about our dreams. About what we want to be in life: a nurse, a doctor, a fireman, a lawyer or some other profession. They listened to us and we could see they suffered with us and shared our dreams as if they were dreaming the same as we do.

They listened and we laughed and we shed some tears too. Yes, we did. We were so open with them. They were touched by our stories and by the stories we told them about our parents, our friends and village. Stories about conflicts, abuse, torture, murder and having to flee to escape death or misery.

They were touched and they decided to do all they could to help us. They did not have the money to help us all, but some of us could go to school or buy some extra food or go and see a doctor.

They told us they would set up a campaign to make those that have the money and the power to help us and all children of the world, feel the pain and suffering that they saw here meeting us and listening to us.

They would make world-leaders feel ashamed that so little is done to make sure we can go to school and study to become a doctor, a nurse, a fireman or someone else.

NATURA PAX

New World Pact

Why spend billions on weapons of destruction?

They would make world-leaders feel ashamed that billions are spent on weapons and on war. Wars that have made life for us difficult and dangerous.

They would make world-leaders see that they are not really fit - or not yet - to lead because they cannot feel our pain and suffering. Because they continue to make war, to buy and sell weapons and to quarrel among them and to not agree on helping us.

They would make world-leaders feel that they need to change or leave the scene. We and all children of the world, as well as all adults, need leaders that treat us with respect as if we were their own son or daughter.

We know it is not an easy job trying to convince world-leaders and other people to let go of weapons and of struggles or wars to gain power and riches. We know but we feel our friends will do their utmost to get us out of this world of poverty, violence, abuse, selfishness, greed and confusion and to bring Peace to us and to all children, women and men.

We would like all world-leaders and all people having the money and power to help us. We cannot understand they still do not do so.

We would like all leaders and other people to come and live with us here for a few days so they can see how we live. So they can listen to us too and hear about our dreams, fears and worries. So their hearts are touched by our stories. So they feel sad and ashamed and decide once and for all to solve poverty, abuse and violence.

Please change and help us!

STOP THE MADNESS OF WANTING TO DESTROY IT ALL!

My goodness, what are we doing? What the hell were they doing? For heaven's sake, stop it!

Gain-of-function experiments to make viruses more deadly than they naturally are, at the risk of some viruses escaping from the labs...

Upsetting Nature's chemical balance to produce herbicides, pesticides and food additives that allow the "upsetters" to make huge profits, but at the same time overload our air, water, soil, and food with unnatural chemicals and chemical compounds that affect Nature's health and thus the health of everyone around the world...

Spending trillions and trillions on massively destructive weapons (increasingly lethal and self-perpetuating) and fueling an entire war economy that kills or maims millions of innocent children, women and men...

Spending billions and billions on Internet platforms to collect as much data as possible about what we do, buy, say and even think, treating us as if we were mere commodities to be exploited, manipulated and abused as you please - just to generate ever more money or bitcoins...

In short, spending billions on destruction and too little on addressing what should be addressed to make this world green, healthy and sustainable. For every child, woman and man in all countries and nations and regardless of their skin color, social status, gender, religion or other divisions that often cause unnecessary conflicts, wars and atrocities.

Stop hell, make paradise!

At the beginning of this letter we used expressions referring to hell and to God. Just figuratively and only to refer to the archetypal concept of right or wrong, bad or good.

What is becoming increasingly clear today is the fact that no one seems to have an acceptable definition of right or wrong or of justice and injustice.

The rule seems to be that when there are no rules, you can just do whatever you want, even if by doing so you harm other people and Nature as well as yourself.

This kind of war mentality or the concept of "survival of the fittest" has its roots in what we have called BABEL. Indeed, the Greatest Aberration ever and the

NATURA PAX

New World Pact

Greatest Lie ever have dominated the entire history of the Human Race. The disconnection of Nature from the Summum Bonum or Superior or Higher Intelligence or the Divine and considering some as superior to other humans and to Nature have led to the world of confusion, fake, deceit, hypocrisy and violence we all find ourselves in today. A world that almost no one can call the world we all want. It has simply become too violent, too unhealthy, too selfish and too destructive. In short, utterly insane! Self-destructive behavior is a mental disorder, isn't it?

Beacon or guide

Anyone right in mind, heart and soul or duty can sense that this cannot continue. We are all already suffering and if we don't change the warring or destructive mindset, it will only make things worse. Our freedom will become even more shackled than it has already and always been by BABEL and its application.

If we want to get out of today's life-threatening world, BABEL or the Greatest Aberration and Greatest Lie must be exposed in all sectors or divisions of human activities and with regard to all products, services, laws, rules, beliefs, theories, political and economic systems.... This world needs a Global Clean-up Operation and an immediate ceasefire in all wars and conflicts.

This world needs to be called the Old World of Violence and replaced with the New World of Peace and Justice.

Natura Pax or Nature's New World Pact

The war mentality must be replaced by the peace mentality. Peace as a common project of all of Humanity to cease to be destructive and make the world a world of Peace and Justice and other human values as defined in Natura Pax or the New World Pact between Nature and Humanity and between all members of Humanity.

Natura Pax was born in the hearts of people who had almost been killed or badly injured or hurt by people with a war mentality. They decided "enough is enough" and after several years of analysis of the current world and its problems, they launched Danellandia or World land of Peace and Natura Pax or New World Pact.

Global Wave of Healing Peace

On 12.12 they officially launched Pax 21 or the Global Wave of Healing Peace to send a strong signal to world leaders asking them to take the [Natura Pax Vow](#) and accept Peace as the respect of universal human values.

NATURA PAX

New World Pact

Sharing universal human values worldwide and across all borders and other BABEL-induced divisions will ultimately ensure that the Old World is replaced by the New World of Peace and Justice. For all people and for Nature.

From 12.12 to 25.12 they want the world to host the Natura Pax Peace Festival, dedicated to Peace and its many aspects and showing what greatness all children, women and men are capable of when they work towards a common goal: ending wars and violence and building a green, safe, healthy and sustainable future for all. [note; the coronavirus restriction made it impossible to organize the Festival - maybe in 2022?).

BABEL principles are to be replaced by "we all win, if no one loses and if we treat all people and Natura Mater with due respect."

We hope you all want to be part of Pax 21 or Global Wave of Peace. Please visit www.pax21.net to find out how you can participate.

Thank you very much and majai'vi (Peace be to all and to Nature)!

CHANGE AND PEACE THE ONLY OPTION AND WAY-OUT

Suffering too much and needlessly!

We are all suffering too much and seemingly ever more, wherever we live or whatever social status or whatever the riches we have or do not have.

In essence, the entire world is suffering as the latest UN General Assembly and COP26 have once again made clear. Alarmingly clear. Even moving many to tears and filling us all with despair and fear. But also with anger, frustration and disgust. The main conclusion: it cannot go on like this. We need change. We should have taken drastic life-saving measures ages ago, but we were blinded by the "glitter of gold" and made deaf by the "sound of money".

In essence, we need this world or rather our leaders to change their mindset and to start behaving more maturely. We need them to think and act as one or as part of one Humanity.

They should stop competing or fighting each other "till death do us part". Competing and fighting to gain more prestige, power and riches - often at any cost, very huge cost indeed.

They should stop the "divide and rule" mentality based on BABEL - primeval and primitive. Not worthy of true civilization.

Aberration and lie or BABEL

BABEL has dominated the entire history of "civilization" or what has been supposed to be civilization or accepted as such, but which too often was just a shadow of true civilization.

BABEL comprises the Biggest Aberration ever consisting of "dissociating Nature from the Divine or Higher Intelligence and treating her as a mere commodity" and the Biggest Lie ever based on the principle that "some are superior to others and to Nature".

BABEL originating at the start of "civilization" in the minds of some stray humans, has indeed impacted our entire history and has in many aspects been ruining the lives of all members of that "civilization" or "shadow civilization".

NATURA PAX

New World Pact

Normal has never been normal

BABEL has led to violence being accepted as normal and even justified. A whole encyclopedia or library has been created full of laws and rules, beliefs and theories based on this historical aberration and lie. What an enormous amount of time, energy, human resources and money has been spent to create this encyclopedia or library of "the history that should never have been", if BABEL had not come to the mind of some feeling superior to others and to Nature.

BABEL has led to mountain-high damage to people and to Nature. World-wide and now nearing the point of "till death do us part". But the need to stop causing damage and preventing any further damage is sinking in.

Trillions spent on destruction

BABEL has led to incalculable losses in resources, financial and others. It has meant trillions and trillions being spent on destroying innocent children, women and men, entire peoples, other countries, races, religions, political and economic systems and other groups. On destroying our own and unique habitat, Earth. Up to the point where some are building bunkers now to hide underground in case doomsday does strike. Or spending billions to go into Space looking for a livable twin planet of Earth...

Competing at any cost

BABEL has made competing against each other a way of life. Destroying Nature and people goes on and on. Making so many innocent children, men and women die because of conflicts and wars between different countries and people. Between groups of people belonging to a different nation, race, political or economic system, religion or whatever other type of divisions. Divisions generally created and/or used to separate people between different degrees of superiority and inferiority – presumed or assumed. Created and/or used to justify violence and even killing.

Preventing history from repeating itself

Competing, destroying Nature and people goes on and on. History repeats itself again and again.

Is there really no way to end this madness based on BABEL? Is there no way to change the mindset of most of our leaders still today and of a great many other people as well? Cannot they be made to see or rather sense this kind of inherently toxic or destructive mindset and mentality is taking us all to the "point of ending human history"? Cannot this primeval Aberration and Lie or BABEL be stopped and rectified or righted?

NATURA PAX

New World Pact

Do we all just need to sit and wait for even worse disasters, diseases and suffering to hit us all, wherever on planet Earth. Affecting everyone of whatever country, nation, race... also all leaders and even those bunkering up or going into Space? Will we need to spend more and more just to survive?

It cannot go on and on

We are sorry to say, but we could not accept this to continue any longer. We are suffering too much when seeing little children crying from pain because they have no food, when seeing young children being killed or maimed in needless wars, when hearing young talented boys and girls talk about their dreams of becoming a doctor, a nurse or fireman and not being given the opportunity or means to make their dreams come true because they are poor, live in a country torn by war, do not have a school to go to.

We have been analyzing "civilization", human history, laws and rules, factors and actors, beliefs and theories having led to the kind of world we all live in now. We have crossed all borders and walls that are supposed to divide us.

Indeed, we are from many different countries and nations, some of us not even having a country. We belong to different races, we are black or white or a color-in-between, we speak different languages, we were born in different political and social systems, some of us were quite poor, others quite well-off, we belong to different religions, some of us do not have a religion at all... In short, we seem to be so different that we are supposed not to be able to get along well. We did though and we still do and ever more so. We are driven by the desire to boost Peace and make BABEL a thing of the past.

There is a way out!

We are friends for life. It was not like that at the start though. When we first met - in real life and on the internet - there was quite a bit of distrust and we did not say or tell each other much in case it might be misinterpreted or not understood correctly. Some of us had been made to believe or were supposed to not like each other or even to be enemies, because we live in countries that are fighting each other. Some of us belong to different religions or to different factions of a religion that are fighting each other...

Yet, it all evolved quite rapidly into a kind of friendship that crosses all borders and walls and that bridges differences many leaders in politics, business, religions and other sectors often consider to be unbridgeable or insurmountable.

Sharing WiSOP or bond of Peace

We became friends because we felt a bond that connects us all. A bond we and all humans share when we are babies. Indeed all babies are able to

NATURA PAX

New World Pact

communicate without words, but through different channels and by different means. We call it WiSOP or the language of Peace or our original mother tongue that is not linked to any country, nation, race, gender, political, economic, religious or other group or division.

We became friends because, once conversations started to become fluent, we felt we spoke WiSOP quite well and so were able to communicate well despite our different backgrounds.

During many years, we exchanged ideas and thoughts about our personal life and relationships, our dreams, our hopes for the future. Ideas and thoughts about Life, Nature, Peace, Love, politics, economic issues, religion, trade and commerce, violence, crime, abuse and innumerable other issues. We found common ground and discussions were very open and honest. Often eye-opening and enriching.

It could have been different

To keep it short, our main conclusion was that this world is not as it could have been. Instead of being the world of violence it is now, it could have been a world of Peace or – why not - Paradise, if it had been based not on BABEL as we define it, but instead on Peace or genuine humanity or universal human values that we all share, but that the BABEL mindset has been neglecting ever since it originated.

The result of upholding BABEL has been disastrous. We all know and we all sense it simply cannot go on like this. For no one, unless you want to keep BABEL and neglect the common goal we all need to have: working together in the interest of all people across all divisions based mainly on BABEL.

"Divide and rule" needs to be replaced by "we all win when nobody loses" and "all people and Nature deserve to be respected always and wherever".

Universal Human Values

We selected 25 human values and called them the Natura Pax Universal Human Values. We decided to launch a campaign for Peace and Justice to promote these values across the globe. Natura Pax refers to the aim of our campaign: creating a world of Peace (Pax in Latin) for all people across all borders and walls and between Humanity and Natura Mater or Nature as the Mother of it all.

Appeal to all leaders wherever

We request all leaders world-wide to visit [Danellandia](#) or the World land of Peace and let themselves be inspired by what they read about our hopes for a better world and by what they read about why the world we now all live in is not good or just at all and what can be done about it to make it good and just for all.

NATURA PAX

New World Pact

We request all leaders world-wide to stop, take a deep breath and go back in time To mentally relive their early childhood and think about what made them happy. To mentally relive the most memorable moments they shared with their mother and father, with their brothers or sisters, their friends, their school mates, their local communities. To think about who they are now and how they became the person they are and why. To think about whether they are genuinely happy and about what makes them feel frustrated, angry and fearful. To think about what actors, factors, beliefs, prejudices and theories made them into the person they now are now. To think about why changing seems so difficult or impossible.

Natura Pax Universal Human Values

We request all leaders to read about the [Natura Pax Convention](#) on Peace as the respect of universal human values and to think about how these values have been applied in their own life, family, community, political party, nation or country. And to think about how these values could be strengthened across all borders, walls and other divisions. About how Peace could be the norm of all that the world does, ending the “divide and rule” principle.

We request all leaders to take the [Natura Pax Vow](#) accepting Peace as the respect of universal human values and pledging to take the [Natura Pax Convention](#) as their beacon or guide to build the New World of Peace and Justice together with all other leaders world-wide. A World of Peace and Justice for all and for Nature. All finally breaking the shackles imposed on us all by BABEL.

Thank you and majai’vi or Peace and Love be to all and to Nature!

Summarizing what can be done

Katharsis

The world today is built on BABEL or the Biggest Aberration (dissociating Nature from the Supreme or Higher Intelligence) and Biggest Lie (some are superior to others and to Nature).

It has made the Mind now running the world consider violence as being part of the "survival of the fittest".

It has made the Mind uphold principles like "divide and rule" and accept "competing until death do us part" as normal.

Time for katharsis or to cleanse the Mind of these corrupting principles. Time to boost Heart, Peace or pure humanity.

Y hai majai ni!

Indeed, no-one has the right to take life.

No-one has the right to damage people or Nature.

Everyone must respect Life or Nature and Nature's Law of all laws or Lex Mater or Law of Peace or Life.

True leaders are leaders feeling majai or feeling Nature's heart beating in their hearts and looking behind all divisive borders and walls keeping all people from being truly human or mpta.

Right or wrong

The concept of right or wrong is often interpreted, misunderstood or twisted to suit one's individual materialistic needs.

The world is a mess of confusion and divisions deriving from a primeval and historical aberration and lie:

"dissociating Natura Mater from the Summum Bonum or Supreme Good or Superior Intelligence or the Divine",

"considering some to be superior to others and to Nature".

Every human carries a Code of Life or DNA+ or Peace and Love as the beacon to keep on the right path.

NATURA PAX

New World Pact

Out of touch with Life

So-called primitive cultures revered Nature as part of the Divine.

So-called advanced cultures dissociated Nature from the Divine and yet pray to the Divine for help and protection.

Most often they pray for personal favors and even favors that damage Nature and fellow human beings.

What is primitive and what is advanced?

It is crystal clear Life is Nature and Life is all and thus Divine.

Time to sense Life and respect Nature and all as part of the Divine.

Regaining Paradise

Leaving BABEL and using CIQ-intelligence.

Correcting the Biggest Aberration.

Ending the Biggest Lie.

Upholding the Truth of Life.

Embracing Peace and being truly human.

Casting off all shackles and divisions.

Liberating yourself and the entire world.

Respecting Nature as the Mother of all.

Faith in Cor Mater

Faith is being majai or CIQ.

Having true faith is being majai and feeling Cor Mater or Heart or MPTA or Nature or Supreme or Higher or Divine beating in your own heart and acting accordingly.

Having true faith is being Peace or Goodness and doing all you can to bring it out and make others feel Cor Mater too so they give up BABEL or Biggest Aberration and Biggest Lie keeping all humans divided and shackled ever since BABEL came into the mind of a stray human that thought to be superior to others and even to Nature.

NATURA MATER'S SOS OR URGENT APPEAL TO UNITED NATIONS AND ALL LEADERS

Reconnect, unite in Peace and build the New World, the world that respects all and Nature across all borders based on reasons incompatible with Peace or MPTA. Be united to save our planet Earth!

This world of madness, fake and confusion needs to be cleaned up or summoned - adapted to Lex Mater.

Letter to the United Nations Letter to all leaders in all countries

Dear Mr Guterres,
Dear Leader,

We have been wanting to write this letter to you for quite some time but hesitated.

It is a letter that is based on inspirations that we have been having ever since the early 2000s (and even before). We are a group of friends that met in real life and on the internet. We live in different countries and belong to different races, political and economic systems and religions or have no religions at all.

Why did we meet and get along so well? There are several reasons. One of them is the fact that we share similar experiences and have a deep faith in goodness in people. Faith we do not consider to be the same as religion. Indeed, some of us do not really belong to any religion.

Faith we all share and we share it with everybody around the world. The experiences we had and the inspirations we have been having clearly show that we are all connected by what we have come to call WiSOP. It can also be defined as the language of Peace.

Peace too is part of MPTA or what is also called Higher Intelligence or Divinity or so many other names. MPTA is both visible and invisible. Nature or Natura Mater is the

NATURA PAX

New World Pact

most visible part. We consider the dissociation of Nature from the Higher Intelligence to have been one of the major mistakes in the history of Humanity. It has had dramatic consequences as it has made many leaders and other people treat Natura Mater as a mere commodity you can use and abuse. What a mistake! What an aberration! What dramatic consequences it has had!

Nature is our main partner

Even many people that pray to God in whatever religion do not respect Nature very much or blatantly abuse her. We have come to a point in history where the entire world is being affected by the coronavirus. It should be seen as an awakener to make us think about the way of life and about how we treat each other and Nature.

When you have had these experiences that we have been having for many years, you see the world differently. It as though you see it through the eyes of Peace. It sheds a wholly different light on how we live and on how we damage both so many people and Nature. Very often deliberately and in a brutal or violent manner.

The inspirations we have been noting down, have often been quite profound and express disgust about the world Humanity has created. It could have been totally different if the foundations on which it has been built and organized, had not been so out of tune with Peace or what it and MPTA stand for.

Those who do not believe in a Higher Intelligence should not directly conclude that this is imagination. It is not. We all carry inside us a higher human intelligence, which we define also as cosmic intelligence. It makes us all part of Natura Mater or MPTA. Without it, any man or woman would not be able to sense what life is (or live fully consciously).

WiSOP or language of Peace

The language of Peace or WiSOP is a communication system that we share from the moment we are conceived. Indeed, it allows us to communicate without words from the moment we are carried in the warm womb of our mother.

We are not linked to any specific religion. We share faith. In fact, theologians we contacted, concluded that our experiences have taken us back in time to when no religion had originated.

NATURA PAX

New World Pact

We met each other as strangers, but we soon felt a connection. The connection through WiSOP that we all share. We believe in Peace. We have a strong faith in Peace and believe in a Higher Intelligence or MPTA.

The present world has become unlivable for many people. Not only poor people, but also richer people. The present world and many of its leaders in whatever country or nation, of whatever religion or no religion, of whatever political or economic constellation, have become too disconnected. The laws and rules and beliefs they adhere to are often not in tune with what Peace or MPTA stand for. They have not used the higher human intelligence or CIQ as we call it to connect to Peace and to be inspired by it. Being inspired to share Peace and all that Natura Mater | MPTA represents. To share it in a honest way with all people around the world.

Joining forces to rehumanize our world

The present world has been constructed on divisions and competition that have often been deadly or very damaging to people and to Natura Mater. Throughout history, decisions have been taken that were in fact contrary to the Law of Peace. Indeed there is a Law common to all people across any border. It requires CIQ to be understood and accepted.

The Law of Peace or the Law of MPTA or the Lex Mater has so often been violated. People and groups of people have imposed laws and rules and beliefs that have benefitted themselves or their limited group at the expense of so many others and/or of Natura Mater.

Out of greed, lust for power, lust for riches or because of mental disturbances, some have imposed laws and rules and beliefs that have led to thousands and even millions of deaths and to poverty, inequality, exploitation and other types of violence.

Change is needed now

The lack of connectedness with MPTA or Peace has reached a level now that cannot be sustained without endangering the entire world and Earth. Change is urgent and should have been made already for many decades. Change that has to be made across all borders of countries, nations, political or economic systems and religions. Change that requires the cooperation of everybody around the world.

NATURA PAX

New World Pact

The inspirations that we have been noting down refer to Peace as the respect for basic human values. Values that have to be strengthened in the interest of the summum bonum or supreme and common good. Good for people across the world and good for Nature.

No single country, political or economic system or religion is superior to others. We have reached a turning point in history: it is either continuing the destruction of our planet or joining forces to repair the damage done to people and Nature and to build a world for all, the world of Peace.

Nature our main partner and more

We will now publish one of the messages we noted down some time ago. Originally in Italian (one of the different languages the messages are in). It summarizes the many messages we have noted down ever since the early 2000s and even before. Please try to use your higher human intelligence or CIQ to connect with MPTA and to sense the full meaning and scope of the message.

May it inspire you to act and join forces and unite in Peace!

Message from Natura Mater or Nature | MPTA to all humans

*Based on inspirations noted down, originally in Italian,
by Ambassadors of Nature and Peace*

Summary: Natura Mater | MPTA “requests”

- to make an end to the madness (primitiveness) that hurts, maims and kills thousands/millions of people
- to stop the legalized illegalities or illegal laws and rules that benefit some to the detriment of others
- to stop considering manipulation, domination, abuse and other types of violence as normal
- to stop the deliberate pollution of Nature, air, water, soil, food and soul (indeed)
- to act as one Humanity respecting the Law of all laws

NATURA PAX

New World Pact

- to start boosting Peace as the respect for the Law of all laws or Lex Mater
- to stop considering oneself to be superior on the basis of legalized illegalities because they are violating the Lex Mater
- to treat everybody everywhere as part of the same and only Humanity all living on the same planet Earth and being part of the same Nature or Natura Mater
- all leaders/misleaders to sanitize or summonize their opinions and ideas against the light of the Lex Mater.
- all leaders/misleaders to cooperate locally, regionally, nationally and internationally on the basis of the Lex Mater and lay the foundation to build the New World and reach a higher level of civilization
- to start using the higher human intelligence or CIQ as being the human equivalent of the Higher Divine Intelligence or MPTA
- to strengthen the knowledge of the common language of Peace or WiSOP
- to start building a society world-wide that excludes nobody nowhere
- to start being a new human that respects the Lex Mater
- to start being the mpta that you all are — the human equivalent of the Higher Divine Intelligence or MPTA
- to try and understand what Life is: growing up to be mpta on the way to MPTA
- to speak and master the original language of Peace common to all
- to stop jeopardizing the entire planet Earth and all its inhabitants
- to stop considering yourself to be superior and having the right to decide on the life of others
- to review all rules and laws imposed on political, economic and religious grounds against the light of Lex Mater
- to put an end to the madness reflecting how primitive the present world and civilization still are
- to start building a world of a higher level of civilization in tune with MPTA and Lex Mater and in harmony with Natura Mater

NATURA PAX

New World Pact

- to understand normal was not normal at all
- to make the changes needed and abolish all elements, practices, rules, laws and processes damaging people and Nature.

* * * *

We, the Ambassadors of Nature and Peace, were humbled when we started to have the experiences and to note down the many inspirations. We felt we were given a mission: promoting peace as the respect of human values. Human values to be shared across all borders so as to finally build a world for all people and not just for a few.

At first, we felt quite overwhelmed by these inspirations, but as the years went by and especially since the coronacrisis, we sense the full meaning of them.

We therefore ask you, the leaders of all countries to join forces within the framework of the United Nations or of another global organization to be set up.

Join forces and jointly and globally attend to the requests we noted down.

We hope all of you will one day feel the same as we felt when writing down the inspirations: a feeling of connectedness and being absorbed by something indescribable. Something you can only partially grasp when speakin WiSOP quite well.

We beg you to make change happen. It is in the interest of the entire world and so of you yourself, your family, your community and country as well.

Many thanks and best wishes.

WHAT A TERRIBLE MISTAKE!

There is still hope we may correct it and save us all

No real agreement on Climate Change! When we all feel that we need drastic global measures to be taken now to avoid disasters getting worse. Disasters hitting the entire world.

Why has no agreement of sufficient substance been reached? Because mainly leaders are still driven by the primeval drive to "divide and rule".

Aberration - Lie - Truth

This mindset is based on the Biggest Aberration and Biggest Lie made at the start of Civilization and still leading us towards total destruction... It has turned Nature into a mere commodity you can exploit and abuse. It has made some people consider themselves to be superior on grounds of material riches, power, beliefs, theories...

The Truth of Life: "all humans are equal and part of one Humanity and one Nature. They all deserve to be treated with due respect, as does Nature as the Mother of all".

The domination of BABEL (Biggest Aberration - Biggest Lie) and the blindness to the Truth has led us to the life-threatening predicament we are all in today. How on Earth can anyone right in mind, heart and soul still want to carry on "business as usual"?

But there's still hope if we can help leaders to access their CIQ or higher intelligence so they (re)discover and ignite their "love generator" or the tool to save us all (as defined in WiSOP or language of Peace).

Let's join hands and hearts and create a [Global Wave of Peace](#) to make all leaders sense our power and make them see and feel change will rescue them too. More on www.pax21.net.

Many thanks and majai'vi to all of you!

SCHRECKLICHER FEHLER!

Noch Hoffnung, dass wir alle gerettet werden!

Kein wirkliches Abkommen über den Klimawandel! Wenn wir alle spüren, dass wir jetzt drastische globale Maßnahmen ergreifen müssen, um zu verhindern, dass die Katastrophen noch schlimmer werden.

Warum wurde keine Einigung mit ausreichender Substanz erzielt? Weil die führenden Politiker immer noch von dem urzeitlichen Drang zum "Teilen und Herrschen" getrieben werden. Diese Denkweise basiert auf dem größten Irrtum und der größten Lüge, die zu Beginn der Zivilisation gemacht wurden und uns immer noch in die totale Zerstörung führen... Sie hat die Natur zu einer bloßen Ware gemacht, die man ausbeuten und missbrauchen kann. Sie hat einige Menschen dazu gebracht, sich aufgrund von materiellem Reichtum, Macht, Glauben, Theorien usw. für überlegen zu halten.

Die Wahrheit des Lebens: "Alle Menschen sind gleich und Teil der einen Menschheit und der einen Natur. Sie alle verdienen es, mit gebührendem Respekt behandelt zu werden, ebenso wie die Natur als Mutter aller".

Die Herrschaft von BABEL (Biggest Aberration - Biggest Lie) und die Blindheit gegenüber der Wahrheit hat uns in die lebensbedrohliche Lage gebracht, in der wir uns heute befinden. Wie um alles in der Welt kann jemand, der bei klarem Verstand, Herz und Seele ist, immer noch "business as usual" machen wollen?

Aber es gibt noch Hoffnung, wenn wir den führenden Personen helfen können, Zugang zu ihrem CIQ oder ihrer höheren Intelligenz zu finden, damit sie ihren "Liebesgenerator" oder das Werkzeug, das uns alle retten kann (wie in WiSOP oder der Sprache des Friedens definiert), (wieder) entdecken und zünden können.

Lasst uns die Hände und Herzen vereinen und alle Führer unsere Macht spüren lassen und sie sehen und fühlen lassen, dass der Wandel auch sie retten wird.

Lasst uns die [Welle des Friedens oder PAX 21](#) erzeugen, um sie zu überzeugen, sich zu ändern und ihnen zu helfen, das CIQ-Werkzeug der Liebe oder des Friedens zu finden.

VERSCHRIKKELIJKE VERGISSING!

Maar er is nog hoop dat we allen gered worden

Geen echte overeenstemming over Klimaatverandering! Terwijl we allemaal voelen dat er nu drastische mondiale maatregelen moeten worden genomen om te voorkomen dat de rampen erger worden. Rampen die de hele wereld treffen.

Waarom is er geen voldoende overeenstemming bereikt? Voornamelijk omdat leiders nog steeds gedreven worden door de oerdrift van "verdeel en heers".

Deze mentaliteit is gebaseerd op de Grootste Dwaling en Grootste Leugen die aan het begin van de Beschaving is gemaakt en die ons nog steeds naar totale vernietiging leidt... Het heeft van de Natuur louter handelswaar gemaakt die je kunt uitbuiten en misbruiken. Het heeft ervoor gezorgd dat sommigen zichzelf als superieur beschouwen op grond van materiële rijkdom, macht, overtuiging...

De Waarheid van het Leven: "alle mensen zijn gelijk en maken deel uit van één Mensheid en één Natuur. Zij verdienen allen met respect te worden behandeld, evenals de Natuur als Moeder van allen".

De overheersing van BABEL (Grootste Dwaling - Grootste Leugen) en de blindheid voor de Waarheid hebben ons geleid tot de levensbedreigende situatie waarin we ons vandaag allemaal bevinden. Hoe kan in hemelsnaam iemand die juist is in geest, hart en ziel nog steeds "business as usual" willen voortzetten?

Maar er is nog hoop als we leiders kunnen helpen om hun CIQ of hogere intelligentie gebruiken, zodat ze hun "liefdesgenerator" (in WISOP of taal van Vrede) kunnen (her)ontdekken en aanzetten. En we allen gered kunnen worden.

Laten we onze handen en harten met elkaar verbinden en alle leiders onze kracht doen voelen om hen laten zien en voelen dat verandering ook hen zal redden.

Laten we de **Vredesgolf of PAX 21** genereren om hen te overtuigen om te veranderen en hen helpen om ook die kracht van Liefde of Vrede te voelen.

¡QUE TERRIBLE ERROR!

Sin embargo, queda la esperanza de salvación

¡No hay un acuerdo real sobre el Cambio Climático! Cuando todos sentimos que necesitamos que se tomen medidas drásticas a nivel mundial ahora para evitar que los desastres empeoren. Desastres que afectan a todo el mundo.

¿Por qué no se ha llegado a un acuerdo con suficiente contenido? Porque la mayoría de los líderes siguen dejándose llevar por el impulso primitivo de "divide y vencerás". Esta mentalidad se basa en la Mayor Aberración y la Mayor Mentira que se cometieron al inicio de la Civilización y que nos siguen llevando a la destrucción total... La Verdad de la Vida: "todos los humanos son iguales y forman parte de una sola Humanidad y una sola Naturaleza. Todos merecen ser tratados con el debido respeto, al igual que la Naturaleza como Madre de todos".

La dominación de BABEL (Biggest Aberration - Biggest Lie) y la ceguera a la Verdad nos han llevado al aprieto en el que todos estamos hoy. ¿Cómo alguien con la mente, el corazón y el alma correctos quiera seguir "como siempre"?

Pero aún hay esperanza si podemos ayudar a los líderes a acceder a su CIQ o inteligencia superior para que (re)descubran y enciendan su "generador de amor" o la herramienta para salvarnos a todos (como se define en el WiSOP o lenguaje de Paz).

Unamos las manos y los corazones y hagamos que todos los líderes sientan nuestro poder y que vean y sientan que el cambio los rescatará a ellos también.

Generemos la **Ola de Paz o PAX 21** para convencerlos de que cambien y ayudarlos a encontrar la herramienta CIQ del Amor o la Paz.

QUE ERRO TERRÍVEL!

Por que não se chegou a um acordo de substância suficiente? Porque principalmente os líderes ainda são movidos pelo impulso primitivo de "dividir para reinar". Esta mentalidade é baseada na Maior Aberração e Maior Mentira feitas no início da Civilização e ainda nos conduzem à destruição total... Pas de véritable accord sur le changement climatique! Alors que nous sentons tous que des mesures globales drastiques doivent être prises maintenant pour éviter que les désastres n'empirent. Des désastres qui frappent le monde entier.

UTTERLY CLIQ - SIMPLY NOT DONE

Virtualization is taking us in the wrong direction. Manipulating people's soul or inner being is utterly CLIQ or a sign of a lower level of cosmic or superior intelligence.

It is a reflection of BABEL or the Biggest Aberration and Biggest Lie still directing all human activities and thoughts. Time to use our CLIQ more and more, put an end to BABEL and start building the New World of Peace and Justice for all and for Nature.

Are we all to become virtualized? Is virtualization the ideal tool to make us feel happy from dawn till dusk and from dusk till dawn?

We are sorry to say, but feel morally obliged to say so: virtualization is taking us in the wrong direction. And no-one right in mind, heart and soul can allow this to happen.

Indeed, when seen through the eyes of CLIQ people, that is people using their higher human intelligence and feeling connected to all of Humanity and Natura Mater or Nature, virtualization is a continuation of the Biggest Aberration or Mistake and the Biggest Lie in human history. BABEL as the cause of most of the problems we are facing all now.

The manipulation of people's soul to gain riches or power, is a crime against Peace or Love or against the Essence of Life. The principle of Justice is breached "do not do unto others, what you would not want them to do to you".

Manipulating people's soul is utterly despicable and the sign of CLIQ status. CLIQ meaning having or using a low level of your higher or cosmic human intelligence. And not being able to feel connected to all of Humanity or to Peace, Love, Heart, Soul or Goodness in all of us nor to Natura Mater.

Rescue operation

Albert Einstein was one of the truly greatest people that ever lived. He purportedly said - or someone else expressing thoughts inspired by Peace - said that a FORCE called Love would be the means to save us all from extinction.

Manipulating our soul is manipulating our very being or essence of our life. We were not meant to be manipulated, but instead meant to be helped to bring out the best in all of us: Love or Peace or Goodness. BABEL has made that difficult if

NATURA PAX

New World Pact

not impossible. It is more than evident, the manipulation of people and of Natura Mater for the sake of more material riches and power has come too far.

We have to get out of the hands of CLIQs. We need to let them feel what we think of it and what we want. We need to convince them that they are destroying themselves as well and need to throw off the shackles of BABEL as well. It will provide them and all of us so much more happiness, real happiness and not faked or virtual happiness.

Stop treating us as a commodity or objects

We all want us to be treated as precious human beings! We want Nature to be treated as the Mother of us all and deserving due respect.

We do not want to be reduced to being digitalized or algorithmatized or as data so as to be bombarded by "personalized commercial messages" and be manipulated to feel inferior if we do not meet the "ideal consumer standards" and buy always the "latest, the newest, the best, the most exclusive, the thing to have"....

We do not want a virtual world. To many, it could seem to be a "golden gift" to make us feel good and happy, while actually being a "poisonous potion" to make us feel not real, to confuse us, to become disconnected as genuine human beings. Human beings capable of great things, but shackled by BABEL and its many applications and misled by it and by those upholding it. Isn't that madness and showing that the normal has never been normal at all?

Investing in virtuality to be able to manipulate people even more is continuing BABEL or the Biggest Aberration and Biggest Lie in human history. The cause of most of the problems we are facing now.

The Biggest Aberration and Biggest Lie need to be exposed and stopped. Einstein or, as it is contested, someone else inspired by Peace talked about a "BOMB of LOVE". It is indeed what we need to make change happen and rescue Earth.

A message in WiSOP or language of Peace once read: "If we want our species to survive [...] love is the one and only answer.

Perhaps we are not yet ready to make a bomb of love [...] powerful enough to entirely destroy the hate, selfishness and greed that devastate the planet.

However, each individual carries within them a small but powerful generator of love whose energy is waiting to be released. When we learn to give and receive this universal energy, we will have affirmed that love conquers all, is able to transcend everything and anything, because love is the quintessence of life."

NATURA PAX

New World Pact

Rapid change and growing abuse

These last few decades of rapid change in industry, commerce, trade, society and other fields may have looked promising and be offering the opportunity to finally make this world a better and more just world for all. Artificial Intelligence could become a "poisonous potion" as well, if the mind is set on maximizing profits yet again.

Anyone right in mind, heart and soul can sense we have not landed in a world that is "good and just for all". On the contrary. We are nearer the final disaster than ever before.

Humans may have developed the technology to travel into Space to look for a livable "substitute" for Earth. Humans may be developing the technology to replace most human activities by digital or virtual humanlike avatars or robots or you-name-it.

Yet, it is still sticking to BABEL or the Biggest Aberration and Biggest Lie that originated in the minds of CLIQs or minds detached from the Truth or Life.

Aberration: "dissociating Natura Mater from the "Divine" or "Superior Intelligence" or "Love" or the "Supreme Force".

Lie: "some are superior to others and to Nature and have the right to dominate, manipulate, exploit and abuse others or Nature".

Manipulating people has reached the limit

Every human with a CLIQ mind, heart and soul has been sensing this cannot go on and on. Instead of seeing this world become good and just for all, we see increasing violence, abuse, deceit and growing discontent.

BABEL and what it stands for and what it has caused, needs be stopped. We need to show how it has made this world a world of fake, confusion, abuse and violence. How it has allowed millions of people to be sacrificed to ideas and ideals based on BABEL. How it has allowed Nature to be damaged so terribly and nearly beyond repair.

Indeed, BABEL and all the damage and hurt it has caused, have to be revealed and the Truth of Life be promoted across all borders and walls or other divisions that have stood in the way of Peace or of a world good and just for all and for Nature.

We need to go it together and demand justice and an end to BABEL and its many applications. We need to demand the Truth of Life to be applied always and everywhere. We are to be respected as precious human beings that must be

NATURA PAX

New World Pact

treated with respect always. We need to demand that Nature, our habitat, our food, air, water and soul be treated with due respect as well.

Global Wave of Peace - Pax 21

Let's start the [Wave of Peace or Pax 21](#) to make those manipulating, dominating, exploiting and abusing us feel we are damn serious about the abuse and demand to stop it immediately.

Let's be the Wave of Peace or Pax 21 to put pressure on those that run our world and quite often damage our lives and their own lives as well. Let's make them feel they need to change for their own health and survival and for ours as well.

Let's demand them to take the [Natura Pax Vow](#) pledging to respect the Natura Pax or Pax 21 Declaration of Universal Human Values and to accept the [Natura Pax Convention](#) as their beacon and guide to build the New World of Peace and Justice (for all and for Natura Mater).

NATURA PAX CALL FOR CEASE-FIRE

We are all part of Humanity.
We are all part of Natura Mater.
Many of us believe in the Divine.
Natura Mater is part of the Divine.
Many of us believe in Goodness.
Goodness is part of the Divine.
The Divine is Peace and Love.
Violence cannot be divine.
Violence is against Peace.
Violence is blasphemy.
All violators and warmongers
must stop all violence and wars.
All violators and warmongers
must reconnect and pacify.

Pacify with themselves,
the Divine and Humanity.
Pacify or find Peace or Divine
in themselves or hearts.
Violence and wars to impose
your own will is blasphemy.
Peace or Love or Divine

NATURA PAX - NATURE'S PEACE PACT

Pact between Natura Mater and Humanity. Based on messages in WiSOP or language of Peace and original mother tongue of all human beings.

We are all born friends, but many people unlearn WiSOP or lose fluency. It makes understanding more difficult if not impossible. Many people are made enemies as a result of many factors, actors and beliefs standing in the way of Peace.

Time to upgrade the knowledge and fluency in WiSOP globally and across all borders of countries, nations, races and other divisive factors.

Time for all leaders in politics, business, religions and other sectors to take the [Natura Pax Vow](#) accepting Peace as the respect of universal human values and pledging to do all they can to make WiSOP or language of Peace common to all again and build the New World.

NATURA PAX
New World Pact

CEASE-FIRE

Many laws, rules, beliefs and theories are based on a misconception and wrong principle: "some are superior to others and to Nature". Consequently, they violate the core of human values or Peace: "all humans and Natura Mater should be respected always".

Natura Mater's Law of all laws or Lex Mater are universal human values to be shared by all humans across all borders and walls. All violence and wars are in breach of Lex Mater and must be stopped immediately.

Ambassadors of Nature and Peace

STOP ALL VIOLENCE AGAINST CHILDREN

No child should be forced to do anything against basic universal values: respect for people, honesty, fairness, justice, truthfulness.... In short against Peace or Lex Mater, the Law of all laws ingrained in our DNA+ or higher human intelligence.

Forcing a child or any man and woman to do anything against their will is violence and a violation of Lex Mater and therefore not legal and a sign of a lower level of CIQ or higher human intelligence.

A new international Tribunal of Humanity and Peace based on the Lex Mater should be established and put an end to abuse and violence against children, women and men - all over the world and across all borders and walls.

Natura Pax Peace Pact - www.npc21.net.

DETÉN TODO ABUSO CONTRA LOS NIÑOS

Ningún niño debe ser obligado a hacer nada en contra de los valores universales básicos: respeto a las personas, honestidad, equidad, justicia, veracidad.... En definitiva contra la Paz o Lex Mater, la Ley de todas las leyes arraigada en nuestro ADN+ o inteligencia humana superior.

Obligar a un niño o a cualquier hombre y mujer a hacer algo en contra de su voluntad es violencia y una violación de la Lex Mater y por lo tanto no es legal y es un signo de un nivel inferior de CIQ o inteligencia humana. Debería establecerse un nuevo Tribunal Internacional de la Humanidad y la Paz basado en la Lex Mater y poner fin al abuso y la violencia contra los niños, las mujeres y los hombres, en todo el mundo y a través de todas las fronteras y muros.

Pacto de Paz Natura Pax - www.npc21.net.

ARRÊTEZ TOUT ABUS CONTRE LES ENFANTS

Aucun enfant ne devrait être forcé à faire quoi que ce soit contre les valeurs universelles de base: respect des personnes, honnêteté, équité, justice, véracité..... En bref, contre la Paix ou Lex Mater, la Loi de toutes les lois ancrée dans notre ADN+ ou notre intelligence humaine supérieure.

Forcer un enfant ou tout homme ou femme à faire quelque chose contre sa volonté est une violence et une violation de la Lex Mater et donc non légal et un signe d'un niveau inférieur de CIQ ou d'intelligence humaine.

NATURA PAX

New World Pact

Un nouveau Tribunal international de l'Humanité et de la Paix basé sur la Lex Mater devrait être établi et mettre fin aux abus et à la violence contre les enfants, les femmes et les hommes - partout dans le monde et au-delà de toutes les frontières et de tous les murs.

Pacte de Paix Natura Pax - www.npc21.net.

FERMATE OGNI ABUSO CONTRO I BAMBINI

Nessun bambino dovrebbe essere costretto a fare qualcosa contro i valori universali di base: rispetto per le persone, onestà, equità, giustizia, veridicità.... In breve contro la Pace o Lex Mater, la Legge di tutte le leggi incisa nel DNA+ o intelligenza umana superiore.

Costringere un bambino o qualsiasi uomo e donna a fare qualcosa contro la loro volontà è violenza e una violazione della Lex Mater e quindi non legale e segno di un livello inferiore di CIQ o intelligenza umana.

Un nuovo Tribunale internazionale dell'Umanità e della Pace basato sulla Lex Mater dovrebbe essere istituito e mettere fine all'abuso e alla violenza contro i bambini, le donne e gli uomini - in tutto il mondo e attraverso tutti i confini e i muri.

Patto di Pace Natura Pax - www.npc21.net.

STOP ALLE GEWELD TEGEN KINDEREN

Geen enkel kind mag gedwongen worden iets te doen wat tegen universele basiswaarden ingaat: respect voor mensen, eerlijkheid, rechtvaardigheid, waarachtigheid.... Kortom tegen de Vrede of Lex Mater, de Wet van alle wetten die in ons DNA+ of hogere menselijke intelligentie is gegrift.

Een kind of welke man of vrouw dan ook dwingen iets te doen tegen hun wil is geweld en een schending van de Lex Mater en daarom niet legaal en een teken van een lager niveau van CIQ of menselijke intelligentie.

Een nieuw internationaal Tribunaal van Menselijkheid en Vrede gebaseerd op de Lex Mater moet worden opgericht en een einde maken aan misbruik en geweld tegen kinderen, vrouwen en mannen - over de hele wereld en over alle grenzen en muren heen.

Natura Pax Vredespact - www.npc21.net.

NATURA PAX
New World Pact

STOPPT JEDEN MISSBRAUCH VON KINDERN

Kein Kind sollte gezwungen werden, etwas zu tun, was gegen die grundlegenden universellen Werte verstößt: Respekt für Menschen, Ehrlichkeit, Fairness, Gerechtigkeit, Wahrhaftigkeit.... Kurz gesagt, gegen den Frieden oder die Lex Mater, das Gesetz aller Gesetze, das in unserer DNA+ oder höheren menschlichen Intelligenz verankert ist.

Ein Kind oder einen Mann oder eine Frau zu zwingen, etwas gegen ihren Willen zu tun, ist Gewalt und ein Verstoß gegen die Lex Mater und daher nicht legal und ein Zeichen für eine niedrigere Stufe des CIQ oder der menschlichen Intelligenz.

Ein neues internationales Tribunal für Menschlichkeit und Frieden auf der Grundlage der Lex Mater sollte eingerichtet werden und dem Missbrauch und der Gewalt gegen Kinder, Frauen und Männer ein Ende setzen - überall auf der Welt und über alle Grenzen und Mauern hinweg.

Natura Pax Friedenspakt - www.npc21.net.

PARE TODO ABUSO CONTRA CRIANÇAS

Nenhuma criança deve ser obrigada a fazer algo contra os valores universais básicos: respeito pelas pessoas, honestidade, equidade, justiça, veracidade.... Em suma, contra a Paz ou Lex Mater, a Lei de todas as leis enraizadas em nosso DNA+ ou inteligência humana superior.

Forçar uma criança ou qualquer homem e mulher a fazer algo contra sua vontade é violência e uma violação do Lex Mater e, portanto, não legal e um sinal de um nível inferior de CIQ ou inteligência humana.

Um novo Tribunal Internacional de Humanidade e Paz baseado no Lex Mater deve ser estabelecido e pôr um fim ao abuso e violência contra crianças, mulheres e homens - em todo o mundo e através de todas as fronteiras e muros.

BE THE ONE YOU WERE MEANT TO BE

Open letter to world leaders at COP26 and elsewhere

Dear world leaders in politics, business, education, religion and other fields,

We have been trying hard to promote Peace ever since some of us were receiving signals that Natura Mater and what I|S|H (genderless and all genders) represents, is becoming fed up. Signals and messages received even when we were still small children.

Social media have often blocked what we tried to post. For reasons that are evident and that anyone reading this letter carefully, will understand.

Nature is part of something much broader. Many have tried to define it, but any definition remains incomplete. It could be described it as something no human mind can fully understand.

Nature is Life. Nature is all of us. What would we be without Life? We depend on Nature to be able to live. I|S|H provides us with air, water, soil, food and something much broader. Indeed.

Natura Mater and Life

Have you ever wondered why science desperately wanted to analyze Einstein's brain after he left this world? Have you ever wondered why he asked his family not to publish many of his letters until many years after his death or until the world was found ready to read them and possibly understand?

Indeed, Einstein had a brain that connected to what he said no human mind could fully understand. He had different words for it, but no word could completely define it. He used Love as the word giving the best of all definitions.

Have you ever wondered what your life would be like without love in its many forms of expression and of communicating? Can you remember being still in the warm womb of you mother? Do you recall the soft voices of your mum and dad

NATURA PAX

New World Pact

or their touch on mum's belly? Indeed, we are able to communicate before we are born.

Incredible it may seem, but when you accept that radio, WiFi and Bluetooth are means and channels of communication, it should only be logical that we can communicate in ways that are not visible, but that do exist.

Throughout history, many cultures and religions have tried to define the supernatural or that something no human can fully understand. The definitions went wrong in different ways. The main mistake, historical because it has influenced our world dramatically, was to dissociate Natura Mater from the supernatural, the Divine, the Higher Intelligence or MPTA (our code-name for that something no human can fully understand).

Just think again about what Love has given you. Just think of the happiest periods and moments in your life. The periods and moments with happiness that lasted longer and that you felt more profoundly than anything material could ever give you.

Just think about the saddest moments in your life or in the lives of your parents, brothers and sisters and other people dear to you.

Both sadness and happiness are difficult to define or describe, just like Love or MPTA.

Connected to Natura Mater

The signals and messages we have been receiving also relate to Love or that something we define as MPTA and which include Natura Mater, Soul, Heart, Peace and more.

We could talk about the signals and messages for a long time. At first, we were a bit overwhelmed by them. And some messages took quite some time to be fully understood. But as time went by, their significance became more evident and self-explaining.

Why us? Because we have all felt deeply connected to Natura Mater and MPTA, most of us ever since we were born. We can recall experiences that normally you cannot recall when they happened before the age of 5 or 6, depending.

We can and you probably could too. It all depends on the strength, intensity and profoundness of your connectedness with Natura Mater and MPTA.

Judging by what you do and what you say and by the look in your eyes - expressing that connectedness - we feel your connection could do with some stimulus or ingredients to make it stronger. Some of you do seem to be connected quite well, but still your mind almost always takes over.

NATURA PAX

New World Pact

Many of you do have genuine greatness in them, but it does not show or you have not discovered or rediscovered it. Not as yet.

We are sorry to say, but greatness to us has a different meaning and relates to that heart-to-Heart connectedness and the understanding of what Nature, Love, Life, Soul, Heart and MPTA are.

We have been discovering more details about the communication system of MPTA and about how it has been affecting our world. The lack of WiSOP as we code-named it and that could be called the language of Peace is largely the reason why this world is in the mess we are all suffering from.

When looking at the world, its history, its leaders, its politics, its economics, its religions, its theories and rules and laws, many problems Humanity has faced throughout history and still today are the direct and indirect result of the lack of connectedness with MPTA and Natura Mater.

WiSOP - language of Peace

What we write may seem strange, because most of you are people of the Mind or mindful intelligence – or predominantly so. We can understand why. You were born and brought up in an environment with specific beliefs, rules and laws that you never or hardly ever questioned. But have you ever wondered why there are so many diverging beliefs, rules and laws, theories and strategies? Many of them so diverging so as to lead to tensions, conflicts, wars and other violence?

When sensing what MPTA and Natura Mater are and understanding its language or WiSOP, you can see that these tensions, conflicts, wars and other violence could largely have been avoided if those beliefs, rules and laws, theories and strategies had not been invented or developed.

The connectedness with MPTA makes you feel you are part of Natura Mater and of the other part of it, Humanity. It makes you feel connected to all of Humanity and to all children, women and men.

Beliefs, rules and laws, theories and strategies were invented or developed largely on grounds of superiority over other people, groups of people or religions, political and economic systems. With time, an innumerable or infinite amount of differences have arisen and divisions created. The result we can more than feel today: this world is messed up by too many diverging views, opinions, theories, beliefs... This world is adrift and many leaders are at a loss and need to find a new direction.

Superiority on grounds that are contradictory to Natura Mater's Law or Lex Mater cannot be called great nor genuine, honest or justified. Indeed it means ignoring the fact that we are all part of one Nature, one MPTA, one Humanity. Nature's Law

NATURA PAX

New World Pact

treats every human being as equal and deserving to be treated along the principle "do not do to others what you would not want them to do to you".

It is more than clear that great leaders have breached this very principle and still do so today. Resulting in incredibly inhuman consequences: millions of people sacrificed to the wrong anti-MPTA ideals and ideas. Nature degraded and abused, enormous fortunes spent on weapons, some more devastating and lethal than others (some horribly called weapons of mass destruction).

On the basis of the many signals and messages and after extensive discussions and analyses of the way our world is organized, the way people are treated, the way Nature is neglected and abused, as well as on the basis of the real or implicit content and purpose of the many rules, laws, principles, beliefs and theories now governing or misleading our world, we defined 25 basic universal human values.

These values are common to all of Humanity and are part of WiSOP, the language of MPTA and Peace.

If these values had been respected always, we would not have had to face the dangerous situation we are now in. The survival of Humanity is at stake. The survival of all of us... Some may say they will be saved or be able to escape to another planet. Well, where will you find the beauty of planet Earth that offers us all to be like in Paradise?

Rescue operation

Not all is lost. Luckily.

But we will need to change. You as well. Everybody has got to take part in the katharsis (a word often present in the messages). You could call it a clean-up of the mindset and mentality. It consists of holding your beliefs, prejudices, relationships with the people around you, your political and economic preferences, the laws and rules you apply or uphold against the light of the 25 Natura Pax universal human values. It will allow you to see for yourself the many factors and actors now standing in the way of Peace. It will allow you to find common ground with other leaders and/or parties and to take Peace as the respect for the Natura Pax Law or Lex Mater as the beacon and guideline to build the New World of Peace and Justice.

We are friends that met on the internet and in real life and that come from many different countries in all continents. Between us we have been to virtually all 200+ countries in the world. We have seen first-hand the enormous differences between the various countries, but also the growing inequalities in those countries themselves, the ocean deep-contrasts between rich and poor. We have met and/or worked for some well-known leaders in different countries. We have met and spoken to people of many walks of life: from successful and not so successful

NATURA PAX

New World Pact

businessmen, from socially engaged politicians and not really socially engaged ones, from visionary and not so visionary religious leaders.... to poor men, women and children in shanty towns, centers for the homeless or just in the street, young and not so young people that ended up in prison, having committed a crime quite often just to survive.

Lex Mater - Law of all laws

All these experiences and the messages have made us conclude that this world is utterly mad, because it is based on the wrong principles. Principles that you could summarize as a Big Lie. A lie that has allowed some to be considered or to consider themselves to be superior to other human beings and even to Nature or MPTA. A lie that has allowed some to impose their will through manipulation, abuse, weapons and other types of violence. A lie that has in fact made so many leaders and other people commit crimes against humanity or against Peace or against Lex Mater or Natura Mater's Law of all laws. Crimes in various degrees of severity and negative impact.

Lex Mater or genuine humanity that is the translation of Peace, Heart, Soul or MPTA in universal human values.

Life itself

We beg you and we feel the messages and signals have been telling it is our mission - the reason why we call ourselves Ambassadors of Nature and Peace, to stop, breathe deeply, look yourself into your eyes and read what is written on the blackboard of your hearts: respect people always, respect Nature always, treat people as you would want them to treat you, treat Nature as the Mother of it all, of the visible and invisible. Please stop, breathe deeply, look yourself into your eyes and discover what you are and what you were supposed to be: a human being reflecting the most precious gift all human beings are given at conception. It can be called Love, superior or divine intelligence, genuine humanity or goodness, peace... In short, the best in all of us. Goodness and the willingness to bring it out and share it with fellow human beings, men, women and children without any distinction. All treated as precious human beings or expressions, visible and invisible, of Love or Higher Intelligence or Summum Bonum or Supreme Good.

We beg you to think about who you are, why you are what you are and what has made you think you have been called to be a leader. Think about the factors, actors, beliefs, rules and laws you apply and uphold. Analyze them against the light of Lex Mater or universal human values and see for yourself whether they are contrary to Peace or not. If they are, please do all that you can to make them correspond with Peace or genuine humanity or Lex Mater.

NATURA PAX

New World Pact

It will allow you to see why there is so much violence, abuse and crime in this world that could have been totally different if Humanity had not been guided by the Big Lie, but instead had been guided by the Truth of Life, embedded in our DNA+ or invisible DNA we all carry inside.

We are all part of one Humanity, all part of the same Nature and all expressions of Love, Peace, Heart, Soul or MPTA.

We beg you to take Peace as the respect of universal human values and to do your utmost to apply these values or Lex Mater. It will make you find the common ground and make you want to work with other leaders to build the New World, a world that is good and just for every child, woman and man and for Natura Mater, the Mother of it all and our essential partner or in short Life itself.

Majai'vi to all of you and to Nature. This word regularly appeared in the messages.

Thank you very much and who knows, we will one day meet (some of you we already met).

Yours,

ALL LIVES MATTER

Respecting Nature is respecting ourselves

Pharma companies, chemical companies, food companies and others types of companies have not always respected Nature or people. Their products and services have often caused damage - some of it at first not visible, but accumulating over time. Damaging or polluting the air, soil and water to a degree that leads to diseases and even death.

We now know and can see in detail what effect this damage is having on our world - in virtually all countries, whether rich or poor. We are all affected by air, soil and water that carry particles of substances damaging our health - not only physically but also mentally. Indeed, these particles we absorb through the air we breathe, the food we eat and the water we drink often not only affect the chemistry of our body but also of the brain and mind.

The damage is becoming more evident by the day. The Corona crisis has made most people think more about health and how it is affected by the world around us: the air, the soil, the food, the water and also the "whole system". The system or way of thinking and acting of ourselves, of others and of companies of all kinds.

It is clear we have sort of been poisoning ourselves. How did we get into this unhealthy predicament? How and why did we and the world allow this kind of pollution leading to many disasters and crisis, like the climate and corona crisis, to happen before our very eyes?

It is still time to end this deliberate pollution of air, water, soil and soul so to speak (or way of thinking and acting).

Saving Earth still possible

But we need to act now. Right away! We should never have allowed this kind of self-destructive behaviour or mindset endangering life on Earth now.

But we can change it all, if we stick together as one and demand all damaging products, services and processes to be prohibited or stopped right away. If it is not

NATURA PAX

New World Pact

possible, they need to be replaced or phased out within the shortest time possible. The necessary means to replace or phase out these products, services and processes, as well as to help those affected by this "clean-up" operation should become the biggest humanitarian effort of global solidarity ever. Every person, every company, every country, every political party or other group is being threatened by pollution. So, it is logical and in the interest of all to contribute to this global clean-up operation.

As an example, we need a new kind of pharmacy. One that puts people and Nature first and respects them as part of one "entity". We are all a product of Nature, and so to truly heal ourselves, we need to help Nature boost her/our natural defense system. It is more than the tangible elements. It is also related to the intangible DNA+ or Code of Life. Many drugs have adverse effects on this Nature | Human balance and therefore often have serious side effects. We need naturopharmaceutics that only produce remedies that stimulate Nature's natural defense. Putting profits and money first is not really what medicine or pharmacy should be about.

It is time to renaturalize and re-humanize medicine, as well as agriculture, science, industry, trade and other areas of human activities. Respect for Nature and for people is a core value of Natura Mater's Law or Lex Mater. As we are all part of Natura Mater, all of us should abide by it. It is only natural and ingrained in our DNA+.

All lives matter

We are all part of one and the same Nature.

We should shout it out loud from the bottom of our hearts, all connected to Nature | Heart | Soul or Life.

Not feeling that connection is a sign of a lower CIQ level.

But there's hope: stimulating people to use their CIQ or higher human intelligence will allow them to reconnect.

It will upgrade their DNA+ or Code of Life and make them feel what Life is - allowing them to lead a fuller and more rewarding life.

It will gradually make them feel that thinking "only some lives matter" is like a blasphemy to Natura Mater or Heart or Life itself.

NATURA PAX
New World Pact

We are one - together we win

We all carry a DNA or genetic code. Science is now unravelling it - unfortunately not always with the right intentions or to the benefit of the "summum bonum" or superior or common good.

But we also carry a DNA+ or Code of Life. It is invisible and yet visible in the way we behave and act with relation to the world around us: to people having a different colour or belonging to a different country or other man-made and often conflictive divisions.

Discovering or rediscovering the Code of Life or DNA+ is without doubt the most wonderful experience one could ever have. It makes life more fulfilling and puts many of the "division-related" thoughts and beliefs in another perspective.

It makes the world as it is today, look very primitive: too competitive and cruel or, in short, inhuman and a blasphemy to Life or Natura Mater.

Time to upgrade the DNA+ of all of Humanity. Time to stimulate the use of CIQ or higher human intelligence. Time to demand those that run our world to act in the interest of all of Humanity and to stop damaging people and Nature, whether far away or in their immediate environment. Damaging Nature or people in one place affects the entire planet and so all of us.

A huge task, but more than worth it!

Let's all be part of **Pax 21** or Wave of Healing Peace and make change happen: freeing us all from the primitive way of "divide and rule" and making "we all win, when nobody loses" the motto to be guided by.

Please share this and other messages with all of your friends and other contacts.

Majai'vi! (Peace and Love to all and to Nature and Life)!

USE - UNITED FOR THE SURVIVAL OF EARTH

Open letter to leaders in politics, economics and business

Copy of letter written in 2008

Dear leader,

We would like your attention for the USE-project. United for the Survival of Earth is a global project that does take the drastic measures needed to save our planet and Humanity. That does take politics and economics to a new level.

It is still time to act. What could be better to unite nations around the globe than a project that would benefit all? Please read on and support this project.

USE - global rescue plan

USE is part of Pax Humanitas, a new vision on politics and economics. To survive, Humankind will need more than dead letter agreements, often called historical but in the end not changing anything substantial.

Some can be called historical because they later proved to be disastrous.

Time is no longer money

As time goes by and problems facing Humankind take on ever larger dimensions, it should dawn on our leaders that time can no longer be measured in terms of money alone. If they do not understand that time can really run out, there are in for replacement.

Global warming, Nature degradation, wars, nuclear threats, poverty... need a different approach. A common approach.

Because everything is still expressed in terms of money and profit, problems are tackled while the question is: "what is in for me?" Leaders should see that they and their countries can benefit more when the question becomes: "what is in for me and for them?" Many leaders and countries are still at the "what is in for me?" stage. Selfishness still runs high. Power struggles are waged in politics and in

NATURA PAX

New World Pact

economics because of it. With devastating consequences and the loss of many lives and the waste of enormous resources that could be spent to tackle the problems.

Common approach

For many decades, green organizations have told us that our very planet is at risk. We are all in the same ship, whether poor or rich. We all need a common approach to save it. Together we can see to it that our ship does not sink. Alone we just do not stand a chance.

Why not create a new organization and call it United for the Survival of Earth – USE – to put the best brains, the best technology and the largest finances into common projects that will benefit all? Yes, all those aboard the ship called Humanity.

Global warming

Global warming is largely due to the combustion of fossil fuels. Why not massively develop alternatives that can be used soon? Do we want the oil companies to dominate the energy market until the very last drop of oil?

And continue with the combustion until the very last breath of clean air or the very last drop of pure water?

How much longer will share prices dominate the economic news? It remains a fickle business indeed, often based on the winds blowing through the stock exchange – simple rumours and speculations. Just imagine the effect global warming with natural catastrophes will have on them. We will need more solid economic constructions with solidarity at the very foundation. Stock Exchanges should change as well. They may generate money, but the money is often far from clean.

Clean energy

Alternatives to fossil fuels are available. Yet they need more investment. It does not happen enough because those who have money to invest still think too much in terms of the financial return on investment.

If the return on investment were not expressed in money, but in the contribution to the survival of Earth, would they not be willing to help more? It would certainly benefit them and Humankind as a whole. Is this not a noble goal to spend money on? Keeping our ship in good condition and afloat.

NATURA PAX

New World Pact

Nuclear energy?

How many countries are now developing nuclear energy when not nuclear arms? Threatening to unleash yet another war, the impact of which could dwarf the Chernobyl catastrophe. Provide those and all countries with an alternative to nuclear energy and take away the reason for nuclear weapons.

Wars?

How much money is put into wars and weapons? Billions. And for what reasons? Often energy related. Providing energy alternatives would take away some of the reasons to wage wars.

Real power

Other reasons for war relate to power struggles. Often due to a very imbalanced distribution of wealth and to corruption. Why do developed countries predominantly choose to side with those that have wealth? Because they have access to the natural resources? Why not help the countries involved to have a strong educational system to make people averse to corruption and to make those having wealth willing to do something for their countrymen? Why not pay a fair price for the natural resources to combat poverty to start with?

We do need to change the mentality and the economy from "gathering as much money as you can" (often by means that are anything but respectable and fair) or the so-called maximization of profits to the maximization of the common good or in short solidarity.

Just think about a football team. Not all the players are of an equal level. But all together they can make an unbeatable team. Let us found USE and make sure that the team can win the most difficult match ever: the survival of Humankind and Earth.

A final word to those people who like to spread out extravagant luxury – often in the media. Would you not be willing to make it a bit less extravagant and invest the money saved on the USE project? It is not about compassion but about survival.

Yours too or that of your children! Do take care of them, please!

BASTA! WAR MENTALITY SHOULD STOP

Wars mostly result from lack of WiSOP — key common to all humans.

When are most of our leaders finally going to realize that they belong to the wrong family?

The “war family” has been damaging our planet for ages.

Through violence of all sorts it has dominated the “peace family”. It has caused the destruction of millions of lives and of billions worth of Nature and infrastructure.

Time to change mentality and to transform Earth into the home for all instead of into the home for a few — foreseeably also having to fear that home might be destroyed as well.

Still, the “war family” does not seem to have learned enough lessons from all the damage that it has caused already.

It is even willing to sacrifice its own family members to the wrong ideals. Even willing to sacrifice this incredibly beautiful Earth to their lust for power.

This sounds too simplistic? No, it is simply too complicated to be understood and sensed by people having the war mentality.

Destruction instead of construction

New weapons are being developed constantly. Billions are invested in the destruction instead of in the construction of a better life for so many poor people around the world and for many others left behind also.

The “war family” is already installing part of its deadly arsenal in Space. As well as sophisticated intelligence systems to control any move anybody anywhere makes anytime.

NATURA PAX

New World Pact

But the “war family” is reaching the very limit.

More and more people around the world view the definition of life as held by the “war family” as endlessly outdated. As is its definition of power. In fact, if the family continues to uphold these definitions, they will be in for some sobering surprises. And yes, because of its mentality, the “war family” might try and do anything just to know what the surprises will be. But even the most sophisticated weapons will offer no help. Over-simplistic? No, it all has to do with what can be defined as the “higher human intelligence”. The corona pandemic should make the “war family” think about what they have been educated to believe and why they continue to think in a “bellicose way”.

We would advise to revert the trend and to start learning from the mistakes of the past. To build a future and not to destroy it. A future for anybody anywhere. A future in which Nature is treated with the respect she deserves. The “war family” evidently does not understand or too little the profound intrinsic meaning of Natura Mater.

Natura Mater is not just the visible environment we live in. She is much more and does communicate...

The “war family” — all leaders — should invest in a decent life for all instead of in the destruction of all life! Tackling problems like poverty and social and ecological injustice at home as well as further away. Restoring the damage done to Nature and preventing further damage from making the entire world population suffer and worse.

That will mean real power! Transforming Earth into the home for all instead of into the home for a few — foreseeably also having to fear that their home might be destroyed as well.

OMBRA'S EARTH REPORT

Earth report to the people of planet Ombra after having visited the Little Blue Planet as it is often called.

Main conclusion: Earth is still too divided and too violent for a partnership.

Dear co-planetarians,

We are glad to be back from our mission to Earth. This planet looked very promising but after visiting it, we were quite disappointed about the civilization we found there – or rather the shortage of it.

Earth is beautiful and could indeed be even more beautiful, but all things considered, it is too hostile to establish direct contact or set up a partnership.

The natural environment is quite similar to Ombra's, but the way Nature is treated there is simply beyond belief. It is treated in a predatory way. Earthians deliberately damage it and do not invest sufficiently in making or keeping Nature healthy. Earthians or at least many of its leaders do not seem to understand they are depleting Nature and thus jeopardizing Earth's survival.

Many human activities still cause a lot of pollution and so damage the health of Nature and of Earthians themselves. Many thousands of them die or become ill as a result of pollution.

Earth is divided in about 200 different countries. Some of these are more advanced than others in terms of economic and technological development. Some countries are extremely poor, leaving millions of Earthians to die because of the lack of food and water or the lack of basic medical care.

NATURA PAX
New World Pact

OMBRA'S EARTH REPORT

Enormous differences

Why such enormous differences? Throughout Earth's history, different tribes, peoples and countries have fought each other for different reasons, the main ones being the ownership of land and other resources, the struggle for power, the exploitation of other people, the gathering of money and prestige, religious superiority... This has led to incredible amounts of money and people being lost and to the destruction (of resources and people). The destruction still goes on and on, with new and more destructive weapons being developed continuously, the dominating belief being that violence has to be combated with violence. Too little is done to combat the reasons behind the violence.

Capitalism

The economic system on Earth, called capitalism, allows such differences to be perpetuated and even strengthened. A limited group of Earthians can build up enormous riches, often by exploiting other Earthians. Many of the products sold on Earth are made in countries with low wages and limited legislation to protect human rights and the environment. Workers often have to work long hours in abominable conditions and get paid very little in comparison with the price consumers have to pay for those products.

Even in the so-called more developed countries, the differences between the various groups of population are often huge. A virtually endless and complicated system of laws and rules imposed by a wide range of political parties – more or less linked to the various groups of population – allows some groups to get “preferential treatment” as compared to the rest of the population.

Some Earthians can earn up to a hundred times more than others for reasons we, Ombrans, cannot understand. Some Earthians can even hide their – often ill-gotten – riches in so-called fiscal paradises and escape from paying taxes in their home countries, though they use the infrastructure and services there.

NATURA PAX
New World Pact

OMBRA'S EARTH REPORT

Such huge differences contribute to tensions, conflicts and wars. They also contribute to crime, which is rather high and often incredibly brutal.

Materialism

The education system on Earth seems to focus more on material values than on moral or ethical values. Young people are trained to fit in with the economic and financial system suffocating Earth and its inhabitants. Too little attention is paid on teaching children how to build a society where people work together and treat each other and Nature with respect and honesty instead of competing with each other in ways that lead to such huge differences, conflicts and destruction.

Lower level

Earth is a beautiful place and most of its inhabitants are peace-loving. Many Earthians do care about each other and about Nature. Many of them would like things to be different. But the system running Earth – with its many different countries and diverging interests – largely overshadows or destroys the positive elements found there.

It all clearly shows civilization on planet Earth has not reached the same level as ours. If Earthians go on competing and fighting each other the way they do now, if they do not treat Nature with due respect and do not treat all inhabitants of Earth with respect and care, they will probably never reach the level of civilization we have.

We do hope Earth will start to really learn from the many – often extremely horrible – lessons from the past and change for the better to create a society based on co-operation and not on domination (for reasons that make life for many innocent people on Earth unacceptably cruel and even lethal).

NATURA PAX
New World Pact

OMBRA'S EARTH REPORT

Therefore, we did not directly communicate with any Earthians as we consider them to lack the right qualities to establish any partnership with them. Also, their communication systems are not really that advanced as their focus is quite different and mostly competitive.

Many thanks.

LETTER TO OUR FRIENDS IN ISRAEL AND PALESTINE

Worried and thinking about ways
to make lasting peace come true

Dear friends,

We hope you are all doing fine. These last few months we have been thinking more than before about ways to bring peace to this world of Violence. Indeed, there is simply too much violence and abuse.

It has been quite some time since we last met and exchanged thoughts about life, family, friendship and, of course, the conflict between Israel and Palestine.

Though you are either Israeli or Palestinian, we remember meeting you for the first time and feeling as if we had known each other for a long time. Quite rapidly, we felt connected and you were very open to us and told us what you thought about the conflict that has been affecting you and so many others for so many decades and even for longer.

Though you, reciprocally, do not know our Israeli or Palestinian friends, we feel you could be friends too. Because, indeed, you all want peace and you all want to live a life without having to fear tensions will again escalate into conflict and war. We all share what we call WiSOP or the language of Peace (if you want to define it succinctly). And that is why we could communicate so well and so openly about so many subjects.

It hurts to see that the tension between Israelis and Palestinians has escalated so often and turns into armed conflicts or war. We are always worried something might happen to you.

Why cannot Peace be the common goal?.

Most Israelis and Palestinians do want peace and live a life without (too many) worries. We all know that as long as the reasons for the tensions and conflicts are not dealt with, war is still very much possible.

NATURA PAX

New World Pact

Why are the reasons behind the conflict not dealt with? Some of you told us what you thought they were. Indeed, the opinions and prejudices kept by some of your countrymen stand in the way of dialogue and a common solution that is not possible when the opinions and prejudices blocking them, are not changed.

Everybody is suffering, also those that stick to these kinds of opinions, beliefs and prejudices.

Common key to solve conflicts

WiSOP is the language of Peace and Peace to us is part of the Higher Intelligence that we all share, whatever our country, nation, race, gender, social, political, economic or religious constellation. WiSOP can penetrate all borders and walls.

WiSOP can take Humanity all over the world to a higher level of civilization without major conflicts or wars. WiSOP holds the keys to a peaceful world and society for all, where nobody is excluded as everybody feels the connectedness with the Higher Intelligence or MPTA as we define I|S|H (genderless).

Ever since the early 2000s, we have had inspirations that tell us that the Higher Intelligence was often not understood, misinterpreted or interpreted in a way to make some tell others that they were superior and could have more rights and privileges.

Misunderstanding and prejudices

This kind of misunderstandings and misinterpretations have led to conflict and wars and so many atrocities throughout history. It has also led to many “legalized illegalities” becoming accepted and considered as normal in our society. As a result of this, this society is clearly hurting and excluding so many people around the world. A world that is now facing one of the worst and most global problems ever: the corona pandemic.

Some of the inspirations we have had since the early 2000s already referred to “cornucopia illnesses”. Now, since 2020 we are indeed all affected by a kind of cornucopia virus. A virus that originated in a society providing and accepting the many legalized illegalities that have benefited some people and groups to the detriment of so many others. Poverty, Nature degradation, conflicts of a political, social, economic or religious nature were the result. Wars and incredibly inhuman atrocities were likewise caused by these illegalities.

NATURA PAX

New World Pact

Coronaviruses are killing thousands of people world-wide. The “cornucopia illnesses” are killing many thousands more and leaving many millions out in the cold.

By legalized illegalities we mean the laws and rules that were passed and imposed as the truth by some or many others, while in fact they were not in keeping with the Lex Mater or Law of all laws. The Lex Mater is common to everyone. It is the essence on which to build a workable society and a peaceful world. Lex Mater is the essence of humanity: common human values to reach the summum bonum or the “higher human intelligence”. The Lex Mater is also common to those that do not believe in a Higher or Superior Intelligence or MPTA as we define it (we use this name, in part, to avoid not being neutral enough). Without MPTA nobody would have existed or been able to live a life consciously. It might seem strange to many, but it should not be. The core of WiSOP will reveal that later or never — depending on how the world is made to evolve.

Humanity has arrived at a turning point in its history. It is now up to all to decide whether to act as one Humanity and share in an honest way what Earth offers. Or, otherwise to continue and apply the myriad of legalized illegalities and continue to consider poverty, Nature degradation, social inequalities, injustice and other types of violence as being “part of the game”. We are sorry to say, but that game might be over sooner than most leaders think.

Manipulating, dominating and abusing other people on the basis of laws and rules and opinions in contradiction with Lex Mater is certainly a dead-end game. Revising all laws and rules and opinions against the light of Lex Mater or the Law of Peace is the only way to solve conflicts and take Humanity as one whole (regardless of any man-made borders) to a higher level of civilization without the primitiveness and illegal illegalities that hurt so many people and Nature.

Sorry to be quite philosophical about it. The interpretation of the holy books should also be revised in keeping with Lex Mater. WiSOP or the language of Peace should be the language to build bridges across all borders so as to resolve conflicts and wars forever. Also the conflict between Israelis and Palestinians.

Majai'vi!

Best wishes and warm regards,

LEGAL OR ILLEGAL?

All depends on the morality or mindset or on the law and rules applied by those who judge.

In some countries, anything that is not specifically forbidden by law seems to be considered legal.

Is it? When "no rules" exist, does "anything goes" become the rule?

Time to redefine legal and illegal on the basis of Lex Mater or Natura Mater's Law - genuine heart-to-heart humanity or universal human values.

Respecting people and respecting Nature always and everywhere should be part of any rule or law. When not, it cannot be considered (totally) legal from the point of view of Lex Mater or Peace as defined as the respect of universal human values.

Majai'vi and best wishes for a real world fair, good, just and healthy for all people everywhere and for Natura Mater or Nature.

ETICO or NEW CURRENCY for HUMANITARIAN PROJECTS

if money is the problem to solve poverty, famine and climate change related problems and if money can solve these problems, why not have the "international community" or G200+ countries agree and decide to set up the Global Ethical Fund and create the ETICO or ethical currency?

Unlike the fickle, manipulative and speculative bitcoin, a strong stable currency to be the tool to clean up the mess this world has become. A global currency to work to the benefit of all people wherever on the planet and not just of a few. And also to restore Nature and to prevent further damage to people and Nature.

Yet, the community can only become a real community if all countries, nations, political parties, corporations and other groups and people in general let go of borders, walls and other divisions now standing in the way of Peace or genuine humanity.

Divisions based on factors, actors, beliefs, prejudices, theories... standing in the way of Peace or genuine humanity or CIQ thinking (higher human intelligence).

Only concerted action by all countries, nations, political parties, corporations and other groups and people in general can solve the shameful problems, like Nature degradation, poverty and other violence. All largely due to the lack of Peace as the respect of universal human values (as the 25 defined in Natura Pax - Natura Mater's New World Pact).

NATURA PAX - PAX 21 VOW

- I understand the present world is too divided.
- I understand divisions, borders and walls of all kinds stand in the way of Peace.
- I understand these divisions make dialogue and cooperation difficult if not impossible.
- I understand the main cause of most problems is the lack of Peace and a common definition of it.
- I understand we need a new beacon of Peace to guide us and to inspire us.
- I understand we need to find common ground or Peace to tackle problems faced by Humanity: Nature degradation, poverty, war, crime, fraud and other types of violence.
- I accept Peace as the respect of universal human values to be shared across all borders and walls.
- I accept [Natura Pax](#) as the guideline and beacon to build a New World of Peace and Justice on.
- I pledge to do all that I can to help and build it.

INTRODUCTION

A sustainable future requires universal Peace.

Peace defined as the respect for universal human values shared and applied across all borders and walls now standing in the way of Peace. Borders, walls and other divisions set up to separate people and to give some more rights than others. Divisions leading to abuse of people and abuse of Nature. Divisions leading to conflict and wars.

Peace is universal and so considers all people as being equal and as being part of one Humanity and one Nature living on one and the same planet Earth.

Peace requires countries, nations, races, political parties, businesses, religions, people of any gender... to work together and iron out differences that stand in the way of Peace.

The age-old principle of “Divide and rule”, which has caused tremendous damage to people and to Nature, needs to be replaced by “We all win, when nobody loses”.

Every child, woman and man is to be treated as a human being: fairly, honestly and with due respect always and wherever.

Nature is to be treated as our essential partner: fairly, honestly and with due respect always and wherever.

I. Universal Human Values

Common universal human values will be the guideline to make sure everybody wins and nobody nor Nature loses.

Everybody and Nature deserve and have the right to be treated fairly and not as a mere object or commodity.

Common goals with a high human value equivalent (HVE) will make this world safer and lead the world to a sustainable future for all people: green, healthy and fair.

NATURA PAX HUMAN VALUES

Respect

Respect starts with respecting yourself. Respect for other people means respecting and accepting their differences. Respect is recognizing the uniqueness of every human being. We would not like everyone to be the same. Respect is not invading other people's privacy.

Freedom

Living your own individuality while respecting other human beings and Nature. Without respect there would not be freedom as others would invade yours. Basic rules are needed like human values. As your anchor or as a beacon of society.

Family

A family respecting human values is the best building block for a strong and caring society.

Justice

Do not do unto others what you would not like them to do unto you.

Charity

Doing well to people and not sacrificing them or their well-being for the sake of money.

Solidarity

Not keeping everything to oneself and enjoying making other people happy.

Neutrality

To stimulate conflicting parties to use all forms of dialogue and not to use force or violence.

Non-violence

Violence leads to violence. Peace is the only way to cure it.

Peace

Peace with oneself, with other human beings and with Nature. It is needed to develop yourself in a healthy way, both physically and mentally.

Friendship

Friends are valuable people you can count on or share happiness with or who can comfort you in difficult moments. Or help you build a better future with. A future of Peace.

Pardon

We are not perfect. We do make mistakes. Sometimes without knowing it. If you do, try to repair them. Asking for pardon is nothing to be ashamed of.

Forgiveness

People do make mistakes. If someone asks you honestly to be pardoned, be prepared to do so.

Honesty

Being true to one's innate goodness. Honesty goes a long way. It is the only way.

Fairness

Trying to find a just balance between the interests of the parties concerned.

Respect for Nature

Nature is essential to all of us. Nature is fed up with the pollution caused unnecessarily and out of greed. Making Nature healthier will make us healthier too.

Humanity

Putting people first and not putting money first. Respecting human values in any case.

Equality

All human beings are equal regardless of their gender, race, age, religion, riches, social status or handicap.

Pluralism

Accepting that there are different races, cultures, religions... but that we should all be humans respecting Peace.

Truthfulness

Respecting the truth is an essential ingredient of any healthy human being. Lies are hard to live by for long.

Trust

People respecting human values can be trusted. A world without trust is a very sad world indeed.

Openness

Being open to different ideas and opinions. Accepting that you do not always have the best. Being open to dialogue.

Tolerance

The willingness to accept differences and to admit that not everything can be as you want.

Humility

We are too little to understand everything. Science can go a long way but there are limits. Programming humans with chips to make them into perfect soldiers is beyond the limit.

Privacy

Respecting another man's personality and living environment as you would like yours to be respected. And not taking suppositions as the truth.

Love

Think about what it means to you. Our definition will be revealed later in a paternal message of Life.

II. Fair Deal Charter

INTRODUCTION

Everyone deserves to be treated fairly. Nature as well as people.

The Fair Deal Charter proposes some principles to boost fairness on the basis of human values.

Business as usual is no option. Business as it is done today is still primarily aimed at generating money, even if it is often damaging to Nature and to people.

Financial crises have not changed the mentality really and business largely continues as it was usual before. The coronavirus pandemic has made it clear that change requires “acting now”.

There is a large consensus about the untenable character of present-day economics, but still too little is done about changing them drastically. The power of financial groups and mega-companies is still determining policies.

The domination of economics over politics and the die-hard belief that money can solve all problems make change difficult and slow.

Nature needs to be protected more intensively and extensively. Nature is now mostly seen as a mere commodity, while she is the essence and Life.

Consumers need to be protected too and given the ability to live a decent life. They are now often seen as a mere piece or object in the economic treadmill.

Fair Deal Charter - protecting people

People are often misled by companies into buying products they do not need.

Products are often presented as having qualities they in fact do not have.

People need to be protected and abuse has to be prevented.

FAIR DEAL CHARTER – PEOPLE

Customers and suppliers will be treated as human beings and partners and companies will apply the following principles:

Justice

We treat our customers and suppliers as we would like to be treated ourselves.

Respect

We will not damage their dignity or privacy for the sake of money.

Fairness

We keep a balance between the interests of our customers, our suppliers, our shareholders and ourselves.

Honesty

We do not sell products that have deliberately hidden defects or that can be damaging to the customer (if they may involve a risk of damage we duly inform the customer).

Liberty

Our customer or supplier cannot be forced to buy, sell or use any product against his will.

Consideration

We realize we need to serve our customer and supplier well and we cannot consider them as mere money-generating agents.

Humanity

We put people first and not money.

Truthfulness

We do not say our products have certain advantages or characteristics if it is not true.

Trustworthiness

We comply with the clauses of our warranty or with the promises made in advertisements or other marketing publicity.

Fair trade

We do not exploit our workers, suppliers or people involved in the production of our products.

Guidance

Our marketing guides and advises the consumer and does not mislead him.

Solidarity

We assign part of our profits to helping people and/or countries in need.

Fair Deal Charter - protecting Nature

Nature's impact on us is huge.

We cannot do without Nature. Yet, Nature is too often maltreated and abused, which also has an impact on people.

Nature needs to be protected and deliberate pollution has to be prevented.

FAIR DEAL CHARTER - NATURE

Nature will be respected as a partner and companies will apply the following principles:

Justice

We do not damage Nature unnecessarily and we maximally reduce or phase out the pollution caused.

Respect for Nature

We do not harm Nature just for the sake of money.

Nature-mindedness

We use as many natural products and ingredients as possible that are not damaging to Nature and we will reduce or phase out any process or products that harm Nature.

Health

We agree that the health of Nature means the health of people and we therefore promote production processes that do not harm Nature or people.

Sustainability

We invest in renewable raw materials and/or in renewable energy.

Partnership

We consider Nature to be a partner and we realize we need her for a sustainable and healthy future.

Nature care

We assign part of our profits to projects in Nature care.

III. Global Peace Charter

INTRODUCTION

Climate change is only part of the problem facing Humanity world-wide.

The whole economic and political system needs to be overhauled. Too much focus on money and too little on other values. Too much focus on repairing the damage instead of on the prevention of it.

It is more than evident that problems like Nature degradation need to be tackled on a global scale. They affect everybody wherever on this planet.

There is a growing awareness that present-day political ideas and economic policies will not be able to really deal with climate change nor with many other world-scale problems either. Too many differences and divisions stand in the way of a thorough solution.

Much more effort and investment need to go into developing non-damaging or non-polluting production processes and into the substitution of polluting energy sources, like fossil fuels, by clean and renewable fuels.

Clean-up or oxigenation

This planet does need to undergo a serious clean-up or oxigenation of mentalities and of the natural environment.

Much more investment is needed in a green, clean and healthy future for all across the globe.

Natura Pax projects like USE [United for the Survival of Earth] to develop green energy at a large scale and to the benefit of all countries, should be launched globally and jointly by all countries.

Human values should be promoted and strengthened in all aspects of life and society, like in politics and in economics (PAX HUMANITAS) and in religions (PAX FIDES) and in education and in the media.

Peace is the respect of human values. Universal and crossing all frontiers of country, race, ideology, status, religion...

Life is definitely more than gathering material riches. Money only provides temporary happiness. Human values allow people to feel they are part of this society. Feeling part of it makes people more willing to contribute to the well-being of that society.

GLOBAL PEACE CHARTER

We respect all countries, all human beings and Nature as partners in a global peace project that aims at:

- peace for Humanity
- peace for Nature
- peace among religions.

We recognize this world is still plagued by many problems that need to be tackled on a global scale so as to build a better and more just world:

- Nature degradation
- burning of fossil fuels
- poverty
- social injustice and exclusion
- distribution of raw materials
- war and terrorism
- criminality (related to drugs and financial greed)
- low social appreciation of human values
- commercial exploitation
- conflicts related to religious differences.

We are aware that the present economic and political systems cannot be upheld without seriously and irreparably damaging Nature and Humanity and, as a consequence, without threatening the survival of Earth itself:

- many production processes are damaging to Nature and to people
- many economic and political systems show a lack of sufficient solidarity, not only between people within a country but also between countries and groups of countries themselves
- present economic and political power has partly been based upon an unfair distribution of means in the past and at present (finances and raw materials)

- present economic and political power has partly been based on the promotion and implementation of the wrong values, largely giving priority to financial considerations
- many products that are damaging to Nature and people are still used because they provide (high) income and because short-term gains seem more important than long-term damage
- money and the lack of it largely dominate political and economic decision-making and the resolution of problems
- different tax systems and tax havens are an incentive to those owning unfairly obtained money.

Human values and all people

We want all countries, political and economic systems as well as companies and human beings themselves to apply the following principles or human values:

Justice

We treat others as we would like to be treated ourselves.

Respect

We will not damage someone's dignity or privacy for the sake of money.

Fairness

We keep a fair balance between the interests of the different parties involved.

Honesty

We do not allow the selling of products that have deliberately hidden defects or that can be damaging to people (if they may involve a risk of damage people should be duly informed).

Liberty

The customer or supplier cannot be forced to buy, sell or use any product against his will.

Consideration

Customers and suppliers need to be served well and cannot be considered as mere money-generating agents.

Humanity

We put people first and not money.

Truthfulness

It is not allowed to attribute certain advantages or characteristics to products when they cannot be verified.

Trustworthiness

The clauses of the warranty or the promises made in advertisements or other marketing publicity need to be complied with.

Fair trade

Workers, suppliers or people involved in the production of products may not be exploited.

Guidance

Marketing needs to guide and advise the consumer and not mislead him.

Solidarity

Part of the profits made by companies and of the income gathered by countries needs to be assigned to helping people and/or countries in need.

Human values and Nature

We respect Nature as a partner and will apply the principles of:

Justice

We do not damage Nature unnecessarily and we maximally reduce or phase out the pollution caused

Respect for Nature

We do not harm Nature just for the sake of money

Nature-mindedness

We use as many natural products and ingredients as possible that are not damaging to Nature and we will reduce or phase out any process or products that harm Nature

Health

We agree that the health of Nature means the health of people and we therefore promote production processes that do not harm Nature or people

Sustainability

We invest in renewable raw materials and/or in renewable energy

Partnership

We consider Nature to be a partner and we realize we need her for a sustainable and healthy future

Nature care

Part of the profits made by companies and of the income gathered by countries needs to be assigned to Nature care.

Global solidarity – Global Peace Fund

We believe in international solidarity as a means to solve this world's problems as mentioned above.

Raw materials

Raw materials are largely exploited by multinationals. These companies should pay a fair amount of taxes to be used for the development of the country where the production is located and for financing the Global Peace Fund (Global Humanity Fund). Today, they often obtain large profits and often pay little taxes.

Green energy

All countries should take part in the development of green or renewable energy sources. They should take part in a global project for green energy financed by the Global Peace Fund.

Development aid

Today, the rich countries do not even spend 0.7% of their income on helping other poor countries. Low economic development and poverty are one of the main reasons for the current migration problems and disasters, as well as of others problems.

Tax havens

No single tax haven should remain. They offer an escape to locate “dirty” money. In a fair world, there is no space for “dirty” money and thus not for tax havens.

Promotion of human values

Common human values should be promoted in politics, in education, in the media and in all sectors of society. The Global Peace Fund could finance promotion programs to be used world-wide. This would allow different political ideologies to reach a better understanding.

Reconciliation between religions

Differences between religions often lead to tension in many parts of the world. Religions should jointly promote universal human values rather than rites and rules that differ too much and that make mutual understanding difficult or impossible.

We will contribute to the Global Peace Fund (also called the Global Humanity Fund):

- this fund will be used to finance the joint development of green energy sources and green technologies and/or production processes that will be made available to all countries
- it will be used to finance global public awareness programs about human values, including peace as the respect of human values
- it will be used to develop agricultural food programs to allow countries to economically produce food that is healthy and that takes into account local conditions and habits as well as Nature (producing foods in a way that is in harmony with Nature)
- it will be used to finance Nature care projects aimed at restoring damage done to Nature in the past
- new global projects will be developed to improve the general condition of Nature and Humanity
- we will pay 1% of company profits and part of the income of our country into the fund.

IV. Oceans for All Charter

INTRODUCTION

Oceans and poles need to be better protected urgently.

Allowing commercial greed and struggles for power to cause irreparable damage to them is a mistake Humanity should not make.

They are essential for our survival.

The oceans and poles should be made the property of all Humanity and not of any particular person or country.

The exploitation of Nature's resources should be friendly to Nature and to Humanity.

The Oceans for All Charter should be the start of a global ocean protection campaign.

Protecting the oceans is protecting ourselves!

OCEANS FOR ALL CHARTER

- Oceans outside the 200 mile continental shelf limit are declared "Oceans for All"
- Oceans for All and both poles are declared the property of Humanity as a whole
- Oceans for All and both poles are not to be the subject of wars and battles between nations
- oil and other minerals found in the Oceans for All and at the poles are declared the property of Humanity
- the exploitation of Oceans for All and poles is to be regulated by the UN or a newly established organization

- the exploitation has to be carried out so as to safeguard ocean and polar life
- the exploitation has to be carried out in a sustainable way
- proceeds of the exploitation are to be dedicated to the improvement of living conditions of all members of Humanity, irrespective of country, race, culture or religion. It includes welfare programs, medical care, poverty reduction and education
- proceeds of the exploitation are to be dedicated to the restoration of the damage inflicted on Nature and on the development of alternative green energy sources.

V. Pax Fides – Peace in Faith Charter

INTRODUCTION

Faith is the belief in the goodness in people and the willingness to bring it out.

Peace is the respect for human values.

Pax Fides aims at creating peace among all religions using human values as a common ground to build peace on.

The understanding between different religions is often not easy. Human values could be the basis of a trend towards bringing religions closer together and towards reducing or doing away with all conflicts and even violence for religion-related reasons.

Religions are requested to sign the Pax Fides Peace in Faith Charter and to pledge they will work together to strengthen human values and thus peace.

Violence is threatening to destroy life forever. Violence against people and violence against Nature.

Some violence is carried out in the name of God or in the name of a religious belief. Violence is incompatible with God. Faith in God means faith in Peace. Peace means humanity or the respect for human values. Respect for life and respect for Nature are basic values.

All religious leaders world-wide are requested to openly condemn all violence and to subscribe to Pax Fides Peace in Faith Charter.

PAX FIDES PEACE IN FAITH CHARTER

- God can have many names
- Religions are different ways to worship God
- God stands for Peace
- To reach God one must reach peace
- To reach peace one must reach humanity
- To reach humanity one must try and respect human values to the maximum
- Peace for Humanity is Peace for God
- Violence of any kind is inconsistent with Peace and thus with God
- Killing in the name of God is against Peace and thus against God
- Religions categorically condemn any kind of violence
- Religions unite to promote peace and humanity.

VI. Space Peace Charter

INTRODUCTION

Civilization on Earth has gone through a history of positive and negative developments.

Technological advancements have been many, but it is sad to see that a large part of the population on Earth is still living in poverty and lacking the means to lead an acceptable life.

Throughout history, millions of people have been killed as a result of the greed, lust for power, beliefs and other man-made factors (politics, economics, religion, feelings of superiority,...).

Countries are still competing with each other to dominate politically and economically. Billions are still spent on war and other destructive activities leading to enormous damage in life and resources.

Nature is suffering badly as well. Economies and with them politics are focusing too much on growth in terms of material riches.

People all around the world are trained to become producers and consumers of goods in ever larger quantities. But is quantity really what this world needs?

Quantity in the form of over-materialism is driving Earth to the limits of sustainability. The quality of life of many people, even the rich, leaves a lot to be desired. The number of cancers and other diseases related to over-indulgence and

the pollution of the air, water, soil and food is increasing dramatically.

Would it not be better to have more quality and less quantity?

Not only on the level of the individual, but also on the level of the entire world population as such.

The exploration of Space is starting to be developed. And again, history seems to be going to repeat itself, threatening to make Space into the new battlefield of countries trying to dominate others and to have access to more raw materials to feed their economies focused on money and quantity.

Before allowing this to happen, all nations should set out a Space Peace Charter to make Space exploration the platform to reshape our planet Earth, analyzing what its population and Nature need to build a sustainable future for all. And establishing clear rules to prevent Space from becoming a battlefield.

Exporting Humanity's shortcomings to Space would be disastrous. No single country should be allowed to claim a piece of Space for itself, but should be part of the major solidarity (with people and Nature) campaign in the history of Humanity.

SPACE PEACE CHARTER

- Space exploration should be regulated
- Peace as the respect for human values should be the basic law to apply to Space exploration
- everything possible should be done to prevent Space from becoming a new battlefield for competing countries or individuals
- no part of Space or any part of a planet or a planet as such should be claimed by any single country or an individual
- Space exploration should be supervised by an independent agency called the Space Peace Agency or SPA. It should represent all nations in a democratic way. All member countries should agree to the Space Peace Charter
- proceeds from Space exploration – after deducting exploration costs – are to be transferred to the Space Peace Fund to finance projects aimed at peace in all its forms on planet Earth
- Space exploration should not be seen as a way to strengthen the power or domination of one country or a group of countries in particular
- Space exploration should be a means to enhance the well-being of Earth's population as a whole, as well as to restore Nature and to repair damage inflicted on it
- Space exploration should not aim at bringing raw materials to Earth that damage its population and/or Nature
- Space exploration should not aim at continuing processes on Earth that are damaging to its population and/or Nature
- Space exploration requires Humanity to show maturity. Maturity is the respect of human values. Solidarity is a priority value. Solidarity is the only way to peace and justice in a world with a sustainable future
- the Space Peace Fund should finance projects aimed at solving Earth's problems on a world-wide scale: poverty, Nature degradation, low appreciation of human values, crime, war, conflicts...
- the Space Peace Fund should finance and foster research and development into Earth's problems and it should bring together the brightest minds in a joint effort of world solidarity – with people and with Nature

- the Space Peace Fund should finance the development of clean and renewable sources of energy to the benefit of all countries
- the Space Peace Fund should finance a world-wide large-scale campaign to promote human values and especially solidarity among nations and people
- the Space Peace Fund should finance research into how to enhance the well-being of people without damaging Nature and making people into semi-automated producers and consumers
- Space is to be kept free of weapons unless they are needed to defend Humanity against possible aggressive aliens
- if Humanity encounters aliens, all should be done to try and establish dialogue and cooperation
- Space is a place Humanity can never expect to fully understand. It should be respected and not be treated with neglect and arrogance
- Space offers no quick solution to Humanity's problems. Yet, the best and only option towards a better and more just future is the joint effort of all nations and peoples to show the best of Humanity: launching the biggest solidarity campaign ever and not making Space into a new battlefield.
