# LETTER TO EVERYONE LOVING NATURE AND PEACE

## Wave of Healing Peace

Dear Friends of Nature and Peace,

Are you also fed up with the way this world and Nature are being destroyed? Do you also worry about the future? About crime, violence and safety? About how to make ends meet? Do you feel you need to work hard and yet have too little time to enjoy life in the company of your family and/or friends?

We are fed up and worried. We feel the majority of people world-wide is fed up and worried. Therefore we send you a personal invitation to be part of Pax 21 or global "Wave of Peace". It was officially launched on 12.12.21 - a date we call the Day of Peace and Liberation (we will explain why later on).

Together as the Wave of Peace we can awaken those who run - or should we say ruin - this world to be ashamed of the mess the world is in. Making them feel that they can do nothing but change the way we treat Nature and our fellow humans beings. It is in their own interest as well.

## We all and Nature deserve to be treated fairly

Nature is used and abused as a mere commodity, whereas she is the essence and Life itself. Who wants to destroy Nature or Life?

Too many people are left out and/or abused commercially or otherwise. Conflicts and wars abound and mostly result from excessive greed or the lust for power or riches of a minority. They

take virtually the entire world hostage and prevent the majority from living a life without too many worries. They think they have the right to manipulate, dominate and exploit people and Nature. Absurd!

This cannot be called civilization. It is primitive madness! It seems that anything is allowed to generate money. Even if it is clear this madness is taking us to ever more conflicts and disasters. Making us suffer needlessly and making us worry (too much).

The creation of a global Wave of Peace will send a strong signal to all leaders (who often deceive us or make us believe they are right). We can make them feel the urgency to join the Natura Pax Convention, which is inspired by Nature and Peace, and which calls for a global cleansing of mentality and a clean-up of the environment, as well as an immediate cessation of all wars.

## Nature's Law or Lex Majai

Exploiting and abusing people and Nature as if they were mere commodities is clearly illegal when seen against the light of the Natura Pax Convention based on Lex Majai, the Law of all laws or the Law of Peace. Peace as being the respect of Universal Human Values - common to all people wherever on Earth.

Respect for people and respect for Nature are basic principles and rights that must be defended by all. Lex Majai must become the basis of the New World of Peace, Sanity and Justice. The world that all countries, nations and peoples should be part of. Finally putting an end to the endless and mostly abominably selfish conflicts and wars that have caused such huge damage to millions of people and to Mother Nature. Conflicts and wars so primitive and barbaric when seen through the eyes of Peace or when held against the light of Lex Majai.
